If the work was done properly rebuilding would not be extensively required. 5- The sleeping bunker behind bunker 6 is shifting. 6- All projects should be coordinated and a deadline is recommended for these items. Priority should be assigned to wire, bunkers w/drainage, perimeter of bunkers, each section should be assigned a goal. 7- Use Stinson as an example of FSB with well built bunkers and good use of details. 8- COL Smith directed CPT's Mendonca, Brabilla and Jacquelin to go to Stinson to observe operation. Travel will be coordinated by MAJ White.	DO, CO, S-3	GD
