

WEARING INSTRUCTIONS — GLOVE INSERTS, WOOL, M-1949

For duty always wear wool inserts inside of glove shells leather. If too warm wear glove-shells, leather without inserts.

Fitting: Be sure these wool inserts are the same size, (either 1, 2, etc.) as the leather glove-shells with which they will be used.

Interchange: These wool inserts fit either right or left hand. Alternate them to make them wear longer.

Keep inserts clean: Dryclean or wash in lukewarm or cold water with mild soap. —Hot water will shrink inserts badly.

Dry inserts slowly away from extreme heat or flame.
