HISTORICAL REPORT

FOR THE PERIOD OF

1 JUL - 31 DEC 1957

#2865

Cy #1

DATA

Subject American

This project was initiated in July 1954 for the purpose of carrying out extensive research with regard to USAF personnel unaccounted for after the Korean

dict. Through information collected from repatriated U.S. and U.N. prisoners
ar, Japanese repatriates, foreign refugees, and numerous intelligence reports,
ong possibility emerged that a large number of the personnel listed as
ing in action" may still be alive and interned in Communist prison camps.
bjective of this project is to investigate the identification of as many of
men as possible. This objective is to be accomplished by the exploitation
l possible documentary and human sources. Project American was and is
tly being developed as a continuing file of all such information with any
usly unevaluated material being disseminated as Special Reports or Intelli-
Reports.
