WINGS

1972~1973

Udorn, Thailand

"Music is the universal language of mankind"

Longfellow

History of the School

Air America School in Udorn Thailand was started in September, 1964, by Air America, Inc. for the benefit of its dependents. The school was a one-teacher operation using the Calvert System in grades one through eight. In September, 1965, the University of Nebraska Correspondence System was initiated for high school students.

The years 1968 through 1972 brought an evolution in the school. An increase of faculty members was provided and a full stateside educational program for grades one through eight was introduced.

A complete curriculum high school was started in the school year 1971. With this expansion, the requirement for increased facilities, materials and a larger staff became apparent. New books, additional science equipment, playground equipment and lockers for students were provided. Elective classes such as publications, man made world, French, and model building were offered.

As a result of this expansion as well as the increase in students, students became more active in sports and other activities. The 1972-1973 academic year brought the addition of more faculty members and a counselor. Various new courses such as wood shop, photography, typing, French I, and French II were available. A variety of athletic activities for both high school and elementary school students was offered. The student council was active and a girl's club was formed.

Captain C.J. Abadie, Jr.

Message from the Vice-President

Air America, Inc. at Udorn Thani, Thailand is actively participating in the many United States Government programs currently in progress to assist the people and countries of Southeast Asia.

The extent and scope of these programs is reflected in the Air America School as we find within the student body representatives of varied U.S. Government agencies and contractors as well as several nationality groups, all of which are engaged in furthering these valuable, humanitarian projects.

Compared to many, the Air America School is small. However, it represents a microcosm of all that is hoped to be accomplished in this part of the world. As your parents can take pride in the accomplishments and contributions they have made, as too, can each of you participate at a personal level in promoting the best interests of our school and your own country.

This can be easily done if you remember at all times that you are, in fact, on display and that by your appearance and deportment you represent the school and your country – it is up to you what that impression will be!!

Bear in mind, too, that your presence here in Thailand affords many opportunities to expand your own knowledge and appreciation of an environment and culture which may be vastly different from your previous experiences. It would be your loss to not take every advantage of this period in your life to expand your horizons.

I take this opportunity to thank you for the excellent representation you have made in the past and urge you to continue to do your best.

Vernon Clarkson

From the Principal's Desk

Another school year has drawn to a close. To all students who have achieved a year of successful study, social involvement, and new experiences in growing, mentally as well as physically, I offer you a 'well done'.

The Air America School in Udorn, Thailand, has provided each student an opportunity to meet requirements for graduation; it was your responsibility to exert the effort to fully exploit those opportunities. The staff is dedicated to the precept that you want to learn, and with that as their major goal, they have created an academic atmosphere, provided the tools, and offered guidance.

With sixteen full time, plus two part time educators, we have a teacher-pupil ratio (1 to 14) which is highly desired but seldom found in most present day schools. Our dedicated staff has insisted upon a level of performance from you which will make your ratings from the AAM School compatible with those standards of any American school. Using traditional methods of placement and grading, the process of joining or detaching transit students throughout the school year is practical, objective, and has reduced the confusion often caused by implementing various educational innovations that are often in use only for a short time.

As we recap the year's activities, the staff feels that the entire student body should be congratulated for the common sense approach to the many frustrations they encountered and to the charitable causes to which each of the students responded. We wish to extend our best wishes to each of you for an enjoyable vacation and, for those returning, we will look forward to a new year with a more mature approach to many of the same problems.

Hello darkness my old friend

I've come to talk with you again

Because a vision softy creeping

Left its seed while I was sleeping

And the vision that was
planted in my brain . . .
still remains

within the
SOUNDS OF SILENCE

In restless dreams
I walked alone

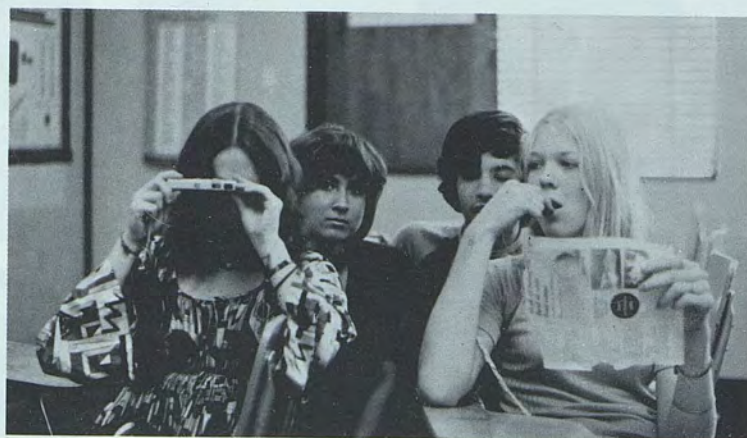

Narrow streets of cobblestone

Beneath the halo of a street lamp

I turned my collar to the cold and damp

When my eyes were stabbed by the flash of a neon light

That split the night and touched the

SOUNDS OF SILENCE

And in the naked light I saw 10,000 people, maybe more

People talking without speaking

People hearing without listening

People writing songs that voices never share

No one dared

disturb . . . the
SOUNDS OF SILENCE

STUDENT COUNCIL

Officers: Diane Griffin, Treasurer; David Wright, Secretary; Mike Hunter, Vice President; John Knowlton, President.

The Student Council held a charity drive to help the Filipino families who lost their homes and belongings during the January fire in Udorn.

Valentine's Dance

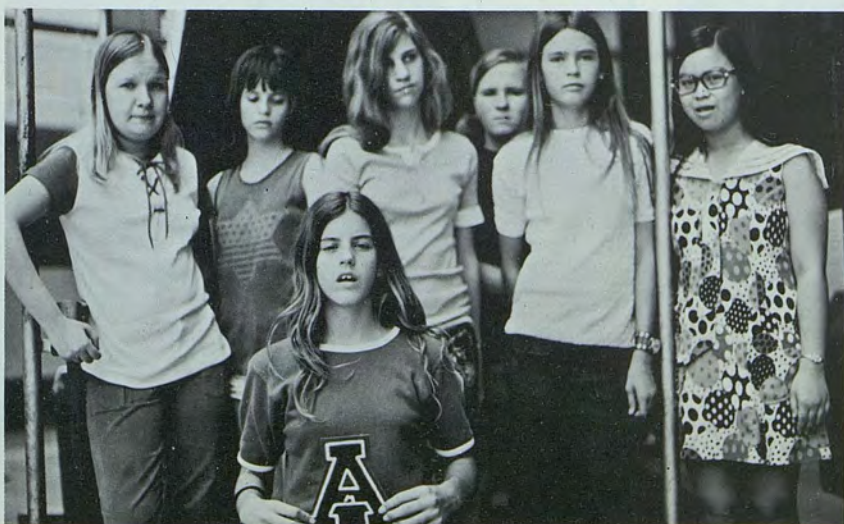

Girls Club

The Girls Club was organized to give the female students a chance to voice their feelings on school activities affecting girls as well as to join together to sponsor various activities.

Some of the activities include raising money for athletic awards by bake sales and a Carnival, and selling school rings.

DEDICATION

The 1972-1973 Air America School yearbook is sincerely dedicated to Miss Judy Love. Miss Love has been teaching in Air America School for four years. During this time she has taught kindergarten, first, and sixth grade. Along with this she has volunteered her own time for music, swimming, dance and pep team assistant.

We feel she has done a fantastic job, while helping us through all of her years here. Also, more than anything else, we appreciate her understanding of our feelings as people. She is truly dedicated to her teaching and will always sit down and try to help you if you have a problem or need help. We consider her to be blessed with something very rare, "A heart of gold."

For all of this we thank her very much, and wish her as much happiness always, as she has brought us.
