MEMORANDUM FOR RECORD

SUBJECT: Telephone Call LTC Little, MACTHAI

1. Summary: Received a call 021430 Sep 70 from LTC Little, Army Advisory Group, MACTHAI on subject of CH-47. Two topics were discussed.

a. Training:

Question - Did USARV answer request for training message (201040Z Aug 70) yet, and if so, what was the answer?

Answer - Message is being staffed for release at this time. Training cannot be conducted by USARV. Recommendation offered to use CONUS.

Comment - Reference was made that personnel from 12th Aviation Group had indicated it could be done. Much discussion ensued but ended with understanding USARV was not set up to conduct training and that 12th Aviation Group could not commit USARV to such.

Question - Can any maintenance training be conducted?

Answer - Not reasonably within USARV. Air Force Advisory Group has Mobile Training Team coming in-country. USARV can not make any commitment against this team and is not prepared to run interference on it. If more information is desired on the MTT, its capability or ability to absorb more students, it would have to be obtained from the Air Force Advisory Group.

b. Transfer:

Question - Has USARV heard anything on the transfer or are transfer papers being sent over?

Answer - The latest information on the transfer is that a funding decision at JCS/USD is being requested by CINCPAC according to USARPAC as of 1 Sep 70 local time. USARV will not transfer the aircraft until the decision is made and guidance is furnished through Army channels to do so.

c. LTC Little was advised information would be provided as soon as it was available.
