

# 229TH PILOTS ONLY

If you've ever wondered what the your Company and the Battalion did before you arrived, or were curious what happened after you left, now is the time to help put it all together. How much do you know about the months of organizing and the first few months "over there"? Or did you know the 229th remained in VN long after the Division as a whole departed? Take a few minutes and fill out the following survey. It, together with the same information from fellow 299th pilots, should give a pretty good picture of your Company and Battalion history during the war. With enough co-operation, the history will be completed and made available for the cost of duplication.
