Dear Sir,

This application is long over due, but finally I got my act together and you have before you, what is needed and I hope some other useful information. I know a few guys who are members, but it took the June 92 Newsletter to get me going. On page 16, under Mini-Reunions, the heading 128th AHC and the Information with 'Doc' Daugherty's name, hit me like a brick. I contacted information and spent the next 1½ hours on the phone with a guy I haven't seen for 25 years. From there this led to another fellow we flew with and then the following week three guys from my flight class. I wish I had joined earlier, I could have made it to Atlanta. At least I can look forward to Pheonix this year.

I have sent along with my application my discharge papers and copies of some of my orders. The reason I have done this, is because these orders have additional names of pilots which you may find helpful. I am presently researching some of these names and at a latter date will forward the info to you. I know a few Pilots who are Viet Vets and are living abroad. I myself spent 16 years flying abroad. I am presently working on an EMS contract in New York State. Just briefly, I've listed below some info I didn't put on the application form.
