Dear VHPA,

On a recent vacation, I happened upon the Quonset Air Museum at North Kingstown, RI. They have acquired a UH-1M which was originally a UH1C, tail number 66-15083. The records for 083 show that it was in-country with the 57th AHC during the first half of 1969 (after which it came back stateside - to Corpus Christi, of course). The museum is seeking information on 083. If you have anything to offer, contact Howard Weekley at:

Quonset Air Museum  
P.O. Box 1571  
North Kingstown, RI, 02852-1571

Or, if you'd rather, call them at 401-294-9540.

And you guys at VHPA - keep up the good work. Sure do enjoy the newsletters and directory!
