

To Mike Sloniker and Earl Baldwin.

In my searching around the archives I found some more stuff on the 52Nd CAB. It appears to cover a latter time frame than the one I have found so far. I also pulled out the information on Operation Mac Arthur that the 4th I.D. History detachment did. Task Force renamed to operation, Matthews also occurred during this time frame and had an adjacent AO. We had questions before about convoy attacks and it appears that a lot of this info is in the Task Force Matthews files.

I have not figured out whom the 1st Battalion 22nd Infantry is but it is a good write up. I got a great laugh out of the politically incorrect write up done by an Lt. Of the 1st Battalion 14th Infantry. This after action report that happened near Da Nang and An Hoa right around Tet of 68. It's great to see that Charles can pull a Cluster Fuck as well as we unfortunately sometimes did.
