FOR IMMEDIATE RELEASE

VIETNAM HELICOPTER PILOTS ASSOCIATION ESTABLISHES NATIONAL  
HEADQUARTERS

The Vietnam Helicopter Pilots Association has announced establishment of it's National Headquarters in Wichita, KS.

VHPA President, Mike McDonald, stated, "The Organization has grown to over 2,000 members in just four years. We had reached the point where a permanent headquarters and fulltime staff were a vital need if the Organization was to continue to grow and serve it's members."

"We looked at several options" said Larry Clark, VHPA founder and Executive Director, "and chose Wichita because it offered a central location, good management and printing services and reasonable costs. We were able to establish our headquarters right on Wichita's Mid-Continent Airport which will be very convenient for VHPA members visiting headquarters."

The Vietnam Helicopter Pilots Association is a non-profit War Veterans Organization. It encourages fellowship among those who served as helicopter pilots in Southeast Asia, and promotes the remembrance of the friends and flight class mates who did not return. A quarterly newsletter is published along with an annual membership directory. The most popular activity in the
