Enclosed please find an additional copy of the 1988 VHPA Directory. This is a document that I am proud to have been associated with. When you compare this edition to the 1986 and earlier versions it is clear to see how much progress has been made in less than two years. The only improvement I would suggest VHPA consider for future editions is a four color cover.

The major work on this directory was done by George Charleson and myself. Mike Law supplied some of the database extraction programs and some copy. Gary Roush and Paul Erway supplied copies of the databases they maintain.

Respectfully Submitted,

John M. Frank
