Subject: Re: maps

probably mentioned this before a long time ago. I kept my set of 1:250,000 JOINT OPERATIONS GRAPHIC (AIR) charts covering all of II corps area. And about 5 yrs ago or so, had them all encased in plastic. They have relatively few pencil marks on them and aside from a little RVN red dirt, are in reasonably good shape. I am not ready to part with them forever, but if they would be of use, I would loan them out for good purposes .... (just a thought)

What I really regret is not stealing the set of three dimensional charts of the same area that I kept in our operations shack at Holloway.
