The white diamond with indian on it is from a Huey unit using the call sign
Warriors. That much I'm positive on. Couldn't find my notes on this yet but
it is one of the units flying UH-1Ds early on some with the early style
intake fit (no grass screens), several being photographed by Tim Page. Nice
photo of one by him on the cover of the book "Vietnam Choppers", by Simon
Munstan. May be one of the units that was disbanded in 65-66 and redesignated
something else. 62nd Avn Co or 73rd Avn Co before the names were reused
perhaps. If I had to guess I'd say it was the 73rd before the Army gave the
designation to a Fixed-wing unit.

I'll keep my eyes out for my notes on this. In the mess somewhere.
