*There are in sequence so
you can see which look best
in black and white!*

*MS word format
maybe best as you can
copy each individual
graphic then paste.*

Mike -

*The full color patches should be correct
according to my research. The 14th & 145th
Battalion colors are probably not accurate though.
The eagle in the Fire Bird patch is an
accurate copy of the original patch. The drawing
in the history may be a variation. As a bonus
I did the A Co. 501 patch in its original colors.*

P.S. I hope this helps. Jay
