Pg 2

I'll keep an eye on the book "Bonnie-Sue" — I'm sure it will be good.

Regards the Associates I belong to. The Association of Air America Pilots — is a small group (35 or so) of us that flew out of NKP for a while — and we all dropped out of the Air America Assn (in Dallas) because of some politics. To a man — none of these guys are prisoners — except me — and really don't want to be involved with others. I've tried to talk them into —

- 1) joining VHPA
- 2) letting our meeting list go to VHPA.

No luck so far. But one of the guys, 'Peg leg' — comes in to see me every so often — and I'm working on it!!!

the Ripcord Assn — was started by Chuck Hawkins, who was a gunnery Capt — at the battle. It's an all gunnery association — except for Rick Freeman and I, who we both flew many hours over the FSB during its siege.

Pg 3

Rick and I both have strong feelings
for these guys — and they've returned
for us. We enclosed Chuck's
business address/number.

Chuck puts out a very good military
newsletter/magazine — called the
American Sentinel.

I hope this helps. Take care and
give the best to the family — and have
a good reunion!!!
