Dear Mike,

You presented the 1994 VHPA Membership directory and information about Lam Son 719 in a very commendable way, and I wish to thank you, Mita Sloviter, and everyone who worked so hard on it. It could not have been easy. In fact, one mind just "paces" at times, thinking back to those times, doesn't it??

It was a great treat to meet Doug Wornack (again) and to 'put out' some of the events at Lolo. Also to learn (in the narratives of Lam Son 719) that even warrant officers sometimes 'transmit' out to the world what they think is only an intercom. But, then again, in the 'bigger picture' of life... the one that comes after the movie, I guess in the vast scheme of things we are all transmitting. And from where I sit, what you said in the 94 directory sounded pretty good.
