MISSIONS

As a result of SAR missions this quarter, the 37th ARRSq rescued 6 individuals under combat conditions. One aircraft was damaged due to hostile ground fire, with no aircraft losses. In this chapter the missions for this quarter are summarized briefly. The complete mission narratives, which are classified, can be located through Rescue Operations.

11 Jul: Jolly Green 30 and 67 were scrambled for a pickup of the survivors of a Marine A-4. As Jolly Green 30 approached his hover he lost an engine and pulled off safely. Jolly Green 67 made his approach and recovered the Alpha survivor, who was in excellent condition. The Jolly Greens were unable to pick up the Bravo crewmember due to intense ground fire in the area. Mission # 1-3-052

11 Jul: Jolly Green 65 and 66 were launched for the possible pickup of the Bravo crewmember of the above mentioned A-4. As Jolly Green 65 entered the recovery area he took a large caliber hit in the right side of his aft ramp and pulled off. 65 then made another attempt again receiving heavy ground fire. On the second attempt the recovery of Bravo was made. Mission # 1-3-052

24 Jul: While performing normal pattern work at a Southern location, Jolly Green 20 noticed an Army Sky Crane helicopter flip over on its side while running up its engines in a revetment. 26 Jul: Jolly Green 61 and 65 were scrambled to recover the crew of a USAF F-4. No voice contact with Alpha was made, but his chute was located and a P.J. was placed on the ground to look for the Alpha crewmember. He was located by the P.J. and a litter was used to bring him aboard the aircraft. While enroute to the hospital the Alpha crewmember died. The Bravo crewmember was recovered with no problems. Mission #1-3-053

26 Jul: Jolly Green 23 and 24 were scrambled for a non-combat pickup of a Vietnamese seaman aboard an LST. The pickup was made and the seaman was taken to a medevac hospital. Mission # 0-3-C10

30 Jul: During the early morning Jolly Green 30 and 65 were alerted for a first light rescue attempt of a downed A1E crewmember. The area of the downed pilot was very hostile. Attempts to suppress the ground fire in the area were made all during the day by fighter type aircraft. At dusk Jolly Green 30 moved into the area and made the pickup. The crews of 30 and 65 flew a total of 14 hours during this day. Mission # 2-3-037

3 Sep: Jolly Green 70 was requested by the local RVC to pickup a US Army soldier who was aboard an Army ship. The soldier was medevaced to the 95th Aero Med. Facility. One non-combat save was recorded. Mission #1-3-056

16 Sep: Jolly Green 21 and 23 were scrambled from a local flight to recover an F-100 pilot who had ejected from his aircraft. feet wet. On the first pattern a smoke was deployed for a hover reference. Then a closed pattern was made and Jolly Green 21 made his approach to a hover, and deployed his P.J. who assisted the pilot into the penetrator harness. Mission # 0-3-011

23 Sep: While airborne Jolly Green 64 intercepted the Mayday call of an F-105 pilot. 64 and Jolly Green 66 proceeded to the area with Spad coverage. Upon arriving in the area an Army LOH was attempting the pickup and had placed one of its crewmembers on the ground. The LOH was forced to pull out of the pickup area as it was unable to recover the pilot as he was stuck in mud up to his waist. The LOH was not equipped with a hoist. Jolly Green 64 then was called in to make the pickup. He made his approach and placed a P.J. on the ground to aid the survivor. With the P.J.'s help the pilot was brought aboard the aircraft with the penetrator and evacuated to DaNang.
