ATTN: Larry Clark

Dear Mr. Clark:

We have a letter from an Australian who is most appreciative of the "Play Boys" during the 1968 TET Offensive. It seems that they are going to have a reunion in Australia in 1987. He recalls speaking to "Play Boy 99" on the radio and setting up air support for himself and 100 of his men. He credits "Play Boy 99" with saving lots of lives.

He has asked us for information that might lead him to his whereabouts. We have advertised in the Daily Bulletin at Rucker for anyone from that era that might know something. Someone suggested that you or some of your people may have some names and addresses that may be helpful. If you have, could you furnish them to me so we can follow up and help this gentlemen.

Sincerely,

Thomas J. Sabiston
Curator
