

There were many things I forgot to talk with you about at the reunion but one was my use of the VHPA letterhead. Several people asked me at the reunion where to send information for me and I told them to send it to headquarters, attention: Vietnam Era Historical Committee. I have a lot of letters going out requesting information and I'm sure the letterhead would help in obtaining results faster. If you can send me a couple of sheets, I can get them printed here with no trouble. Any advice on envelopes?

When should I submit quarterly reports to the council? As things are now, there many items about which I can report, I hope it continues. When I do have something I would like printed in the newsletter or items to be mailed out (survey, etc.) to whom should I send the item or request? I wish I could have stayed around to ask all these questions while I was at the reunion.

I looked into getting my IIGS IBM compatible but found it will cost about \$900 so am going to keep working on this format until prices come down or I find a better way to do it. Gary Roush is copying some IBM files onto IIGS disks I brought with me so I'm afraid I'll keep bothering him for a while.

Although I got as many names of people there as possible, one I forgot was the guy in D.C. who works in the Pentagon who has access to so much information. There were some things I wanted to ask him but after Saturday night no one was to be found!

Enough of my bothering you now. When you have time, if you could review what I'm sending and give me your opinion on the general lay out.

A handwritten signature in blue ink, appearing to read 'Bill Greenhalgh', with a stylized flourish at the end.
