These are some of my recollections from long ago. I am sure of what I have provided and as I recall further, I will provide additional information. Sometimes it was better to forget, however, I will continue to try to furnish information.

As an aside, I looked through some old records from the Cav and found these orders. They might help, also. At least you have a record of some who were in the Units.

Yours in Patriotism,

A handwritten signature in dark ink, appearing to read "Carroll M. Fyffe". The signature is fluid and cursive, with the first name "Carroll" being more legible than the last name "Fyffe".
