LETTER FROM VHPA PRESIDENT

Dear VHPA Member:

When I hear from many of you about how much you value what the VHPA is doing, the one benefit that is at the top of everyone's list is the annual directory. It is with pleasure that your association presents you with the 1987 edition of the VHPA Directory. This 1987 Directory represents a considerable change from past years' editions. First of all, there are a lot more people listed. The last year has brought about a significant growth in the VHPA membership, as well as an increase in the number of Vietnam helicopter pilots we have located. Unfortunately as we begin to get the military records sorted out, we find the KIA/MIA/Deceased listings growing as well. Second, we are publishing the 1987 edition later in the year than we have done previously. This is so that all the new members and information gathered at the annual reunion are included. In the past, we were finding that publishing prior to the reunion made the directory out-of-date almost as soon as it was printed.

It is important for all of us to recognize that this publication is something beyond a membership directory for an organization, it is a historical document as well. Within its pages are contained the names of a group of men who fulfilled a unique role in a most unusual event. But as a historical document, it is incomplete. The estimates are that about 20,000 men served as helicopter pilots in Vietnam. This directory lists the whereabouts or fate of some 6,000 of those men. That means there are still about 14,000 we have not found. Help your association complete this history. Send us any information you may have on the whereabouts of any Vietnam helicopter pilot not listed here. If you still have a list of your flight school classmates or unit orders listing the fellows you served with, make a copy and send it to VHPA headquarters. Every piece of information helps.

In regards to this subject, I have a special request. We believe that the KIA/MIA and Deceased list is very close to being complete as far as names of those killed in Vietnam are concerned. We do know however that it is still missing a lot of details about each individual as well as the names of many who may have passed on since leaving Vietnam. As painful as it may be, please review the list and supply any information you may know that will help complete the details. Afterall, with the exception of their names on the wall, their listing each year in this directory may be the only sustaining tribute some of these men will receive.

Sincerely yours,

C. David Owens
President

VHPA MEMBERSHIP & FRIENDS

This listing contains two groups of persons merged together in one alphabetical list. The first group are all those individuals who are presently (or have been at some time in the past) members of the Vietnam Helicopter Pilots Association. The second group, which the VHPA designates as Friends, are all those individuals which the VHPA has found and identified as Vietnam helicopter pilots but who have chosen not to join the VHPA at the present time. This group is noted by asterisks appearing in the upper right hand corner of the individual's listing. A few listings will have an asterisk appearing at the start of the address lines. This means that at one time the address was valid but mail sent to that address now is being returned as undeliverable. In order to make future directories more complete, VHPA members are asked to supply any missing data about their own listing or any other person's listing. Members are particularly encouraged to pass along the names and addresses of any Vietnam helicopter pilot who is not listed in this directory to VHPA headquarters as well as a good address on any listing shown as undeliverable. The assistance and cooperation of all the VHPA members is needed if the VHPA is to reach its goal of finding all the pilots that served during the Vietnam era.

KIA/MIA AND DECEASED

This listing contains the names of all the individuals who served as helicopter pilots in Vietnam and were killed there, are still listed as missing in action, or whom VHPA has been informed died after their tour(s). This list has changed considerably since last year's directory, mainly through the hard work of Gary Roush. There have been three main sources for this information:

1. The Vietnam Veterans Memorial in Washington, D.C.
2. The National Archives with information from the Department of Defense and the Department of the Army.
3. VHPA Members.

Because much of the "official" information has been found to be incomplete and questionable, it is important that the information in the listings be verified by VHPA members. Some individuals listed may actually have been fixed wing only pilots, ground personnel or a non-rated passenger. Much of the information with regard to cause or date may be inaccurate. It is extremely important that any errors, omissions or additional data be reported to VHPA headquarters.

The main abbreviations mean the following:

- KIA — Killed In Action
- MIA — Missing In Action (Note: All MIAs have been declared dead by the Department of Defense)
- DAT — Died After Tour
- DDT — Died During Training
- SVN — South Vietnam
- NVN — North Vietnam
- BNR — Body Never Recovered
- AF — Air Force
- AR — Army
- MC — Marine Corps
- NA — Navy
- CG — Coast Guard
- AHC — Assault Helicopter Company
- ASHC — Assault Support Helicopter Company
