Status (in 1973): Killed/Body Not Recovered
Aircraft/Vehicle/Ground: AH-1G

Other Personnel in Incident: (none missing)

SYNOPSIS: On April 5, 1972, Capt. Henry M. Spengler, pilot, and WO Charles E. Windeler, aircraft commander, were flying as lead aircraft in an AH-1G helicopter (tail #67-15594) against an enemy force in the vicinity of Loc Ninh in Vinh Long Province, South Vietnam.

As the helicopter was pulling off its second gun run, it was hit by enemy anti-aircraft fire. The helicopter began to descend with flames billowing from the exhaust area, and at about 300 feet above the ground, it appeared that the tail boom began to bend and wobble, causing the aircraft to spin to the left.

The gunship crashed, burst into flames, and exploded. Several members of the flight saw the helicopter during the descent and crash, but saw no one escape from the aircraft.

An aerial search was made by numerous aircraft, but no survivors were seen. No ground search was attempted due to hostile fire. An electronic search failed to locate any survivors.

STROBRIDGE, RODNEY LYNN

REFNO: R1855

Name: Rodney Lynn Strobbridge
Rank/Branch: 03/US Army
Unit: Battery F, 79th Artillery Battalion,

Date of Birth: 22 May 1941 (Denver CO)

Status (in 1973): Missing in Action
Aircraft/Vehicle/Ground: AH-1G

Other Personnel in Incident: (none missing)

SYNOPSIS: On May 11, 1972, Capt. Robert J. Williams, pilot, and Capt. Rodney L. Strobbridge, co-pilot, were flying an AH-1G helicopter (tail #69-15009), as wingmen in a flight of three AH-1G helicopters launched to support allied forces at An Loc, in Binh Long Province, South Vietnam.

While pulling off the target, the aircraft was hit by enemy ground fire. Something had hit near the tail boom, and it was severed from the fuselage. The aircraft went into a flat spin and crashed. It was believed that a SAM (surface to air missile) had hit the aircraft because of the immediate separation of the tail boom.

Capt. Williams' last radio transmission was, "Oh, my God!"

No further radio contact was made with Williams and Strobbridge. No one saw the helicopter hit the ground. Both men were thought to have died in the crash of their aircraft.

A refugee later reported that while serving in the 21st Division Engineers at An Loc, he discovered the skeletal remains of an American. The U.S. Army believes this could have been Williams or Strobbridge, but the remains have never been recovered.

According to witnesses, Williams and Strobbridge are almost certainly dead.

U.S. Army Flight Training Class Index

This is the second year that an index of VHPA members ordered by Army flight class numbers appears in the Directory. Last year's "initial offering" was well received by the Membership especially those completing the 1992 Directory Questionnaire. This index follows the same style used last year but includes these changes: (1) any corrections reported during last year, (2) over 1,100 more Vietnam Era pilots, (3) the flight class information for almost all KIA/MIAs was obtained during the past year, (4) the sort sequence of the 500 series classes used in 1967 and 1968 was corrected, and (5) only the last name and first initial are presented versus the full last and first names plus middle initial.

This is important to remember - if you were trained by the U.S. Army but your VHPA record does not contain a valid flight class code, you will not appear in this index. It is also important to remember that each VHPAer can have up to two flight class codes. For the majority, two is enough - one for the Primary Training (e.g. Ft. Wolters) or initial fixed wing training and one for the Advanced Training (e.g. Ft. Rucker or Hunter - Stewart) or a helicopter qualification course. For those that were in more than two flight classes, currently you must choose the two that are the most important to you - sorry. Please report any corrections to VHPA Headquarters.

As in the 1992 index, the order for Army trained pilots is flight class number and then alphabetical by last name and first initial. This index was built by extracting information from the VHPA Membership data base for all living Vietnam Era pilots (without regard to membership status), all pilots in the VHPA KIA/MIA data base, and all pilots in the VHPA DAT/DDT database (pilots the died training to go to Southeast Asia or that died after returning from service in Southeast Asia) and known to the VHPA as of mid-August, 1993. Naturally, the names in this index must be used with the full Members and Potential Members Roster, Section II, to retrieve the full address for a living Vietnam Era pilot.

For 1993, the presentation rules listed above resulted in 9,745 pilots and in 587 unique "classes numbers". The Directory Committee welcomes comments concerning ways to make this index more meaningful in future editions. Please send your comments to VHPA Headquarters: ATTN: Directory Committee. The following status codes are used in this index:

DAT - Died After Tour
DDT - Died During Training

KIA - Killed In Action
LIF - Life Member of the VHPA
REG - General Member of the VHPA

MIA - Missing in Action
PRO - Potential VHPA Member

Branch of Service (Excludes U.S. Army) Index

This is the second year that an index of VHPA members ordered by Branch of Service appears in the Directory. The U.S. Army trained pilots enjoy the U.S. Army Flight Training Class Index; so it only seems fair to give everyone else an index of their own. Last year this data appeared at the end of the 1992 Directory Index and was "somewhat hidden" by 14 pages of Army data. This index follows the same style used last year but includes these changes: (1) any corrections reported during last year, (2) over 1,100 more Vietnam Era pilots, and (3) only the last name and first initial are presented versus the full last and first names plus middle initial.

This is important to remember - if your branch of service was not the U.S. Army but your VHPA record does not contain a valid branch code, you will not appear in this index. It is also important to remember that currently each VHPAer can only have one branch of service code. Thus if you served with the USMC and then flew for Air America, you must choose which one is more important to you for the purposes of this index - sorry. Please report any corrections to VHPA Headquarters.

As in the 1992 index, the order is branch of service in alphabetical order and then alphabetical by last name and first initial. This index was built by extracting information from the VHPA Membership data base for all living Vietnam Era pilots (without regard to membership status), all pilots in the VHPA KIA/MIA data base, and all pilots in the VHPA DAT/DDT database (pilots the died training to go to Southeast Asia or that died after returning from service in Southeast Asia) and known to the VHPA as of mid-August, 1993. Naturally, the names in this index must be used with the full Members and Potential Members Roster, Section II, to retrieve the full address for a living Vietnam Era pilot.

For 1993, the presentation rules listed above resulted in 899 pilots and in 10 unique Branches of Service. The Directory Committee welcomes comments concerning ways to make this index more meaningful in future editions. Please send your comments to VHPA Headquarters: ATTN: Directory Committee. The following status codes are used in this index:

DAT - Died After Tour
DDT - Died During Training

KIA - Killed In Action
LIF - Life Member of the VHPA
REG - General Member of the VHPA

MIA - Missing in Action

FRD - Potential VHPA Member

VHPA Membership Geographical Index

The following Index is VHPA's first attempt to provide the Membership with an easy way to determine the number and names of pilots in any given city within the US mailing system, within the country groups for APOs and FPOs, and within countries for non-US mailing systems. Naturally, the names in the index must be used with the full Members and Potential Members Roster, Section II, to retrieve the full address.

The presentation order is generally alphabetical by state. Guam (and all of U.S. Micronesia), Puerto Rico, and Washington D.C. are given "state status" in this alphabetical presentation. The three APO and FPO areas (The Americas, Europe, and the Pacific) follow all the "states". The various countries within the APO mailing system are given "city status" for this index. Finally, all non-US mailing addresses (e.g. Canada, Saudi Arabia) are given "state status" by country but their cities are not presented.

It is important to remember that anyone with a bad address (e.g. a ? following his name in the Members and Potential Members Roster) is NOT included in this index.

For 1993, the presentation rules listed above resulted in 8,852 pilots in 3,472 unique "cities" in 59 unique "states". The Directory Committee welcomes comments concerning ways to make this index more meaningful in future editions. Please send your comments to VHPA Headquarters: ATTN: Directory Committee.

Combat Unit Index

The following Combat Unit Index is VHPA's first attempt to provide the Membership with an easy way to locate the number and names of pilots that served with any given Southeast Asian unit during the Vietnam Era. Naturally, the names in the index must be used with the full Members and Potential Members Roster, Section II, to retrieve the full address.

The presentation order generally follows the one used by Shelby Stanton in *Vietnam Order of Battle*. There are three levels in Stanton's presentation order. First, U.S. Army unit followed by all other U.S. military services and finally all allied forces. Second, higher commands in ascending numerical order (e.g. 1st Cav Div, 1st Inf Div, 4th Inf Div) followed by subordinate units. Third, U.S. Army subordinate units are ordered alphabetically by logical branch (e.g. Artillery, Aviation, Cavalry, Engineer). We added a "roll-up unit" when that was needed. For example, each battalion sized unit had a Headquarters plus two or more letter (A, B, C) units but if the VHPA database contains only the battalion name rather than a specific unit name, this individual is assigned to the "roll-up unit" for that battalion.

It is important to remember - each pilot in the VHPA database can have up to eight Combat Units and each unit is decoded and sorted separately. However, if we can not decode the unit (maybe because it is not properly entered into the database or maybe because we currently do not know what that unit code means); it is NOT included in this index. Please report any corrections to VHPA Headquarters.

For 1993, the presentation rules listed above resulted in 12,861 names of pilots for 505 unique "units". The Directory Committee welcomes comments concerning ways to make this index more meaningful in future editions. Please send your comments to VHPA Headquarters: ATTN: Directory Committee.

Major Commands

This section consists of VHPAers that were POWs followed by the Major Commands. Several units (e.g. HQ 1st Inf Div) are included even though the VHPA database currently does not list anyone as having served in the unit. This was done for clarification reasons. Please remember the 23d Inf Div was also known as the Americal Div. The reasons for listing the POWs first are: they "paid some serious dues" and we did not have another place to "put their unit" within this presentation. This presentation order shows 49 Major Command units with a total of 681 VHPAers.

Artillery Units

This section consists of VHPAers that served with any Artillery unit believed to have or control helicopters. The various Field Force level Commands (e.g. IFFV, XXIV Corps) were listed in the Major Commands section. The aviation detachments from many Artillery units were centralized at the Field Force level. So if your VHPA database record currently has Field Force level codes, you will be listed in the Major Commands section.

The presentation order for this section is numerical by Artillery Group, then by Battalion / Artillery Regiment, and by HHB first followed by letter Batteries within Battalions. Each Artillery Battalion with letter Batteries (e.g. 4/77th ARA) has a "roll-up unit" for everyone we can not assign to a specific Battery. This presentation order shows 27 Artillery units with a total of 363 VHPAers.

Aviation Units

This section consists of VHPAers that served with any Aviation unit without regard to Divisional relationships. The Aviation Section for the various Infantry Brigades (e.g. 2d Bde 9th Inf Div or 173d Abn Bde) are listed in the Major Commands section. Aviation related Transportation Corps units are listed in the Transportation Section. Security related Aviation units are listed simply as Aviation units within this section.

The presentation order for this section is numerical by Group, then by Battalion (HHC first followed by letter Companies if appropriate), and then the Aviation Companies and separate Detachments. Each Aviation Group and Battalion (e.g. 4th Avn Bn) has a "roll-up unit" for everyone we can not assign to a specific Company. At the end of this section you will find all the NETTs (New Equipment Training Teams) and units that did not have numerical names (e.g. 1 Corps Avn or UTT). Many VHPAers, with more than one tour, flew with fixed wing aviation units; so those units are listed in this section. For this year all Battalions have the title "Combat Aviation"; next year we will provide the "Combat Support", "Security", etc. titles. This presentation order shows 218 Aviation units with a total of 7813 VHPAers.

Cavalry Units

This section consists of VHPAers that served with any Cavalry unit without regard to Divisional relationships. Even though the 11th Armored Cavalry Regiment was a Major Command, it is listed in this section. Aviation units (e.g. the 227th Avn Bn) that flew for the 1st Air Cav are listed in the Aviation Section. Any Transportation Corps maintenance units (e.g. the 412th TC Det that was attached to C/7/17th Cav) are listed in the Transportation Section.

The presentation order for this section is numerical by Cavalry Regiment, then by Squadron (HHT first followed by letter Troops if appropriate), and then the Cavalry Troops. Each Squadron (e.g. 1st Sqdn 10th Cav) has a "roll-up unit" for everyone we can not assign to a specific Troop. Since it was possible of helicopter pilots to serve at the Squadron level in a "ground Squadron" (e.g. 1/10th Cav was a "ground" Sqdn because only its D Troop was an Air Cav Troop); VHPAers with Sqdn level codes are listed in this section. However, VHPAers with "pure ground" Troop codes (e.g. D/7/17th Cav) are not listed in this section. This presentation order shows 52 Cavalry units with a total of 2,251 VHPAers.
