

VIETNAM HELICOPTER PILOTS ASSOCIATION

1995 MEMBERSHIP DIRECTORY

Volume 12

October, 1995

without breaking down for one reason or another. Sometimes we would only make it to the end of the runway before breaking down. Jim and I know that most of the pilots felt we were putting her down on purpose. After about a month or so we were finally getting up to about 4 hours a day. Just about the time Jim Kilgo left for the states Boxcar 470 went full circle and started becoming one of the most reliable aircraft we had at that time. So, as I watched her burning, I couldn't help but say what I did. "I've spent six months building this bird - and now I must stand and watch her burn."

A/C 67-18483 by Earl Evans - Boxcar 470 was destroyed on Sunday afternoon, February 23, 1969. Tuesday of that same week my crew was assigned a new aircraft (67-18483) fresh from the states. She was all shiny and new without any armor plating and most of all no sheet metal bullet hole patches on her skin. Armor plating in place and passing our final test flight, Boxcar 468 was released for combat Friday night. Our very first load Saturday morning, (March 1, 1969) was a 500 gal. water trailer and class 5 headed for LZ Maxwell. LZ Maxwell was located out west of Da Nang several miles. The area didn't even look good as we started our final approach to the Marine out post. We were approx. 150 feet off the ground on final when we were hit with an RPG round. The water trailer took a direct hit from the RPG round blowing super large pieces of shrapnel into the bottom of our aircraft. The VC usually use a 50 cal. round as a tracer to tell them where they are shooting the RPG. That 50 cal. went threw our left fuel cell blowing about a 6" hole in that cell. All 300 gal. of fuel dumped out on the inside of the aircraft covering the floor with about 2" of fuel. Our troop seats had caught fire from the 50 cal. tracer. Why we didn't blow up - I'll never know. Jerry Grey, my crew chief, was in the back on this load and when he stood up, light was shining down on him from all of the shrapnel from the water trailer. We had to set down on LZ Maxwell to see how badly we had been hit. After the fire was extinguished we pulled all of the drain plugs in the bottom of the aircraft to drain out all the excess fuel still trapped in the belly. Jerry Grey went up top side to duct tape all the holes in the blades. All six blades were peppered pretty bad. I was afraid Jerry would get shot by the VC while up on top and in the open. But the Marines kept trying to protect us. They wanted us off their LZ, because we were drawing so much attention for VC in the area. They wanted to finish us off. We pulled to a hover and prayed that the damaged blades would hold. The aircraft was a little shaky but we headed for home. When we set down at the end of the runway every one came running to us. Several were saying that they had heard we were all killed in action at LZ Maxwell. It took 3 weeks of sheet metal work to put 483 back in action again. So, that virgin aircraft of Saturday morning - became a harden veteran by Saturday night with several holes to be patched. None of the crew was injured in this operation. Another blessing from God, who could have taken us all home on that one.

A/C 67-18458 by John LeCates - Several aircrews flew from Chu Lai to Vung Tau on March 7, 1968 in A/C 67-18455 to pick up some new B Model Chinooks. After a night at the Grand Hotel we proceeded to the air field to see the new B Model Chinooks. After a visual inspection A/C 67-18458 was signed into the 178th ASHC inventory by flight engineer Dick Janousek on 03-08-68 at the Vung Tau Airport. Aircraft 458 always had a front transmission chip detector problem. There were several emergency and unscheduled landings because of a chip detector warning light. Runups and oil sample tests came back clean and cleared A/C 458 for flight. A/C 458 was grounded on 05-12-68, the day of the Kham Duc evacuation, waiting for oil sample results. While on a normal resupply mission north west of Chu Lai in early April 1969, Boxcar 458, commanded by WO Ronald E. Olivotti and piloted by WO Nile L. Harter encountered intense hostile fire resulting in a round ripping into the aircraft's transmission and warning lights, and dropping pressure gauges signaled the end of the flight. Downed aircraft were not new to the 178th ASHC, but the incidents that took place in this situation were. The immediate report forwarded back to the 178th maintenance team was that the aircraft definitely would have to be recovered by a Skycrane, because of its weight and flying condition. Maintenance men, CWO Alfred J. Romaszowski, and 1st Lieutenant William R Thibeault realized that the aircraft could not be recovered by a CH54 until the following day, decided to go to the disabled Chinook. They realized that the aircraft was in a very

conspicuous location and its chances of lasting the night in the barrage of mortars that was sure to come were very slight despite the hasty security that was established around to aircraft. After evaluating the damage, Mr. Romaszowski offered an extraordinary solution. Hoping that no real damage was done to the interior of the transmission, he fashioned a wooden plug for the gaping hole and the transmission was refilled with oil. SP/6 John W. Teid and SP/5 Melvin C. Young volunteered to crew the ship as CW3 Romaszewski and 1Lt. Thibeault attempted to fly it out. The engines were started and all looked well except for one blinking chip detector warning light; Romaszowski decided to make the attempt. The ailing transmission caused the flight to be made at a low level while emerging from the enemy infested area without the benefit of door gunners. Mr. Romaszewski had selected to take minimum crew, and both Specialists Reid and Young were occupied at holding the wooden plug to keep it from being shaken loose by the vibration of the massive transmission. Specialists Reid and Young both suffered burns on their hands from holding that all important homemade plug in the transmission of ailing "Boxcar 458." On May 15, 1969 Boxcar 458 was lost while in a 50 ft. hover over LZ Professional. It took six hits, three in the aft transmission and three in the control closet. The Chinook was destroyed by fire, but there were no casualties. See related story by Earl Evans on aircraft A/C 458 and A/C 483.

A/C 67-18458 and A/C 67-18483 by Earl Evans - 05-15-69: LZ Professional had been under fire for quite some time and was getting dangerously low on ammunition and water. 178th ASHC had received the call to send two ships to said location. Two trips each of water and ammo. Cobra gunships and jet support was also called to help make sure all supplies would arrive safe and sound. Boxcar 483 and 458 were the two aircraft picked for the mission. When we arrived at the LZ, the gunships and jets were still pounding the southwest corner, where the VC were reported to have two 50 cal. machine guns located. Boxcar 483 was the first aircraft to head for the drop-off zone. All eyes were on the southwest corner, waiting for the VC to try to shoot us down. All quiet... Banking around the northeast corner, on the final approach, only about 100 feet off the ground, everyone is thinking, "PIECE OF CAKE". Then all hell broke loose. Two twin 50 cal. machine guns opened up on us, plus several small arms fire. Boxcar 483's top side rocked over as one 50 cal. round hit the upper part of the aircraft. Never before had I ever seen as much gunfire going off and knowing they were all trying to hit me. Tracers and small arms fire bounced off the ground and flew past our windows without another hit. Our load was released on the run. We were never lower than 50 feet from the ground as the load fell to the landing pad. We pulled power and climbed out of there. We could feel the vibration in the upper pylon area where the 50 cal. round had hit. At that time we also were not sure if we had taken any hits from all the small arms fire. The gunships and jets really started pounding the area from where the shooting had come. It was like a mini war zone. Gun fire going both ways. Boxcar 458 started her descent to the landing pad. Through the smoke and haze we could tell that she had taken some major hits. They were unable to pull power and disembark the area. As she settled to the ground, small arms bullets were hitting the aircraft all over. A major fire had erupted as the crew ran for safety in the LZ. That was the end of Boxcar 458. As we circled from above, watching 458 burn, we hoped the crew were safe and no one hurt. As it turned out, all of the crew of 458 were safe and sound - but very much shaken from the ordeal at LZ Professional.

As for Boxcar 483, we were very lucky as well. The anti-aircraft 50 cal. round that had hit her, hit the forward transmission mount pad, which is about a 6" square. The anti-aircraft shell cut a 5" groove deep into that mount pad. A couple inches one way or the other and Boxcar 483 would have finalized at LZ Professional as well.

Books - In addition to Ben Silver's outstanding *Ride At A Gallop*, Signal Publications and Wayne Mutza has a neat book *CH-47 Chinook in action*.

Statistics - In all 29 different American and South Vietnamese units had CH-47s and at least 15 different TC dets provided maintenance support. The VHPA HELICOPT.DBF database has 1,881 CH-47 records which report on 566 unique tail numbers and indicate 157 were destroyed.

U.S. Army Flight Training Class Index

This is important to remember - if you were trained by the U.S. Army but your VHPA record does not contain a valid flight class code, you will not appear in this index. It is also important to remember that each VHPAer can have up to two flight class codes. For the majority, two are enough - one for the Primary Training (e.g. Ft. Wolters) or initial fixed wing training and one for the Advanced Training (e.g. Ft. Rucker or Hunter - Stewart) or a helicopter qualification course. For those who were in more than two flight classes, currently you must choose the two that are the most important to you - sorry. Please report any corrections to VHPA Headquarters.

The order for Army trained pilots is flight class number and then alphabetical by last name and first initial. This index was built by extracting information from the VHPA Membership database for all living Vietnam Era pilots (without regard to membership status), all pilots in the VHPA KIA/MIA database, and all pilots in the VHPA DAT/DDT database (pilots that died training to go to Southeast Asia or that died after returning from service in Southeast Asia) and known to the VHPA as of mid-August, 1995. Naturally, the names in this index must be used with the full Members and Potential Members Roster, Section II, to retrieve the full address for a living Vietnam Era pilot.

Special provisions have been made for officers from other services (e.g. Marine Corps and Air Force) that were members of Army flight classes; they are listed in this index as well as the Branch of Service index to follow. A special note is added to each record to make this possible.

The Directory Committee welcomes comments concerning ways to make this index more meaningful in future editions. Please send your comments to VHPA Headquarters: ATTN: Directory Committee. The following status codes are used in this index:

DAT - Died After Tour
DDT - Died During Training

KIA - Killed In Action
LIF - Life Member of the VHPA
REG - General Member of the VHPA

MIA - Missing in Action
PRO - Potential VHPA Member

VHPA Membership Geographical Index

The following Index provides the Membership with an easy way to determine the number and names of pilots in any given city within the US mailing system, within the country groups for APOs and FPOs, and within countries for non-US mailing systems. Naturally, the names in the index must be used with the full Members and Potential Members Roster, Section II, to retrieve the full address.

The presentation order is generally alphabetical by state. Guam (and all of U.S. Micronesia), Puerto Rico, the Virgin Islands, and Washington D.C. are given "state status" in this alphabetical presentation. The three APO and FPO areas (The Americas, Europe, and the Pacific) follow all the "states". The various countries within the APO mailing system are given "city status" for this index. Finally, all non-US mailing addresses (e.g. Canada, Saudi Arabia) are given "city status" by country but their cities are not presented.

It is important to remember that anyone with a bad address (e.g. a ? following his name in the Members and Potential Members Roster) is NOT included in this index.

Combat Unit Index

The Combat Unit Index provides the Membership with an easy way to locate the number and names of pilots that served with any given Southeast Asian unit during the Vietnam Era. Naturally, the names in the index must be used with the full Members and Potential Members Roster, Section II, to retrieve the full address.

The presentation order generally follows the one used by Shelby Stanton in *Vietnam Order of Battle*. There are three levels in Stanton's presentation order. First, U.S. Army unit followed by all other U.S. military services and finally all allied forces. Second, higher commands in ascending numerical order (e.g. 1st Cav Div, 1st Inf Div, 4th Inf Div) followed by subordinate units. Third, U.S. Army subordinate units are ordered alphabetically by logical branch (e.g. Artillery, Aviation, Cavalry, Engineer). We added a "roll-up unit" when that was needed. For example, each battalion sized unit had a Headquarters plus two or more letter (A, B, C) units but if the VHPA database contains only the battalion name rather than a specific unit name, this individual is assigned to the "roll-up unit" for that battalion.

It is important to remember - each pilot in the VHPA database can have up to eight Combat Units and each unit is decoded and sorted separately. However, if we can not decode the unit (maybe because it is not properly entered into the database or maybe because we currently do not know what that unit code means); it is NOT included in this index. Please report any corrections to VHPA Headquarters.

The presentation rules listed above for the membership, DATDDT and KIAMIA databases resulted in 15,171 names of pilots for 531 unique "units". The Directory Committee welcomes comments concerning ways to make this index more meaningful in future editions. Please send your comments to VHPA Headquarters: ATTN: Directory Committee. Please see page 285 for a key to the status code abbreviation in front of the individual's name.

Major Commands

This section consists of VHPAers that were POWs followed by the Major Commands. Several units (e.g. HQ 1st Inf Div) are included even though the VHPA database currently does not list anyone as having served in the unit. This was done for clarification reasons. Please remember the 23d Inf Div was also known as the Americal Div. The reasons for listing the POWs first are: they "paid some serious dues" and we did not have another place to put their "unit" within this presentation. This presentation order shows 52 Major Command units with a total of 794 VHPAers.

Artillery Units

This section consists of VHPAers that served with any Artillery unit believed to have had or to have controlled helicopters. The various Field Force level Commands (e.g. IFFV, XXIV Corps) were listed in the Major Commands section. The aviation detachments from many Artillery units were centralized at the Field Force level. So if your VHPA database record currently has Field Force level codes, you will be listed in the Major Commands section.

The presentation order for this section is numerical by Artillery Group, then by Battalion / Artillery Regiment, and by HNB first followed by letter Batteries within Battalions. Each Artillery Battalion with letter Batteries (e.g. 4/77th ARA) has a "roll-up unit" for everyone we can not assign to a specific Battery. This presentation order shows 25 Artillery units with a total of 429 VHPAers.

Aviation Units

This section consists of VHPAers that served with any Aviation unit without regard to Divisional relationships. The Aviation Section for the various Infantry Brigades (e.g. 2d Bde 9th Inf Div or 173d Abn Bde) are listed in the Major Commands section. Aviation related Transportation Corps units are listed in the Transportation Section. Security related Aviation units are listed simply as Aviation units within this section.

The presentation order for this section is numerical by Group, then by Battalion (HHC first followed by letter Companies if appropriate), and then the Aviation Companies and separate Detachments. Each Aviation Group and Battalion (e.g. 4th Avn Bn) has a "roll-up unit" for everyone we can not assign to a specific Company. At the end of this section you will find all the NETTs (New Equipment Training Teams) and units that did not have numerical names (e.g. I Corps Avn or UTT). Many VHPAers, with more than one tour, flew with fixed wing aviation units; so those units are listed in this section. This presentation order shows 226 Aviation units with a total of 9267 VHPAers.

Cavalry Units

This section consists of VHPAs that served with any Cavalry unit without regard to Divisional relationships. Even though the 11th Armored Cavalry Regiment was a Major Command, it is listed in this section. Aviation units (e.g. the 227th Avn Bn) that flew for the 1st Air Cav are listed in the Aviation Section. Any Transportation Corps maintenance units (e.g. the 412th TC Det that was attached to C/7/17th Cav) are listed in the Transportation Section.

The presentation order for this section is numerical by Cavalry Regiment, then by Squadron (HHT first followed by letter Troops if appropriate), and then the Cavalry Troops. Each Squadron (e.g. 1st Sqdn 10th Cav) has a "roll-up unit" for everyone we can not assign to a specific Troop. Since it was possible of helicopter pilots to serve at the Squadron level in a "ground Squadron" (e.g. 1/10th Cav was a "ground" Sqdn but its D Troop was an Air Cav Troop); VHPAs with Sqdn level codes are listed in this section. However, VHPAs with "pure ground" Troop codes (e.g. D/7/17th Cav) are not listed in this section. This presentation order shows 54 Cavalry units with a total of 2,673 VHPAs.

Medical Air Ambulance Units

This section consists of VHPAers that served with any Air Ambulance related unit without regard to Divisional relationships. Only two Medical Battalions (e.g. the 15th and the 326th) had organic Air Ambulance Platoons; so only those Med Battalions appear in this section. The presentation order for this section is numerical by Groups followed by Detachments, Companies, and Battalions. This presentation order shows 18 Medical units with a total of 393 VHPAers.

Transportation Units

This section consists of VHPAers that served with any Transportation unit without regard to Divisional relationships. All the "original" TC units that were redesignated Aviation units (e.g. the 8th TC Co became the 117th Avn Co and the 45 TC Bn became the 145 CAB) are listed in this section. All Transportation Corps maintenance Detachments (e.g. the 412th TC Det that was attached to the C/7/17th Cav) are listed in this section. The "pure" Maintenance Battalions (e.g. the 709th MNT in the 9th Inf Div) are listed in this section. The presentation is numerical by Battalion, Company, or Detachment. Please remember the 1st TC Bn was resident on the USNS Corpus Christie Bay. This presentation order shows 59 Transportation units with a total of 384 VHPAers.

U.S. Marine Corps Units

This section consists of VHPAers that served with any U.S. Marine Corps helicopter related unit. The presentation order is the 1st Air Wing followed by the three Air Groups with their respective H&MS and HM* Squadrons in numerical. The VMOs appear last. It was common for multiple tour Marine pilots to fly with fixed wing squadrons; but these squadrons are not included in this section. This presentation order shows 34 units with a total of 815 VHPAers.

Branch of Service (Excludes U.S. Army) Index

This is important to remember - if your branch of service was not the U.S. Army but your VHPA record does not contain a valid branch code, you will not appear in this index. It is also important to remember that currently each VHPAer can only have one branch of service code. Thus if you served with the USMC and then flew for Air America, you must choose which one is more important to you for the purposes of this index - sorry. Please report any corrections to VHPA Headquarters.

The order is branch of service in alphabetical order and then alphabetical by last name and first initial. This index was built by extracting information from the VHPA Membership data base for all living Vietnam Era pilots (without regard to membership status), all pilots in the VHPA KIA/MIA data base, and all pilots in the VHPA DAT/DDT database (pilots the died training to go to Southeast Asia or that died after returning from service in Southeast Asia) and known to the VHPA as of mid-August. Naturally, the names in this index must be used with the full Members and Potential Members Roster, Section II, to retrieve the full address for a living Vietnam Era pilot.

The Directory Committee welcomes comments concerning ways to make this index more meaningful in future editions. Please send your comments to VHPA Headquarters: ATTN: Directory Committee. The following status codes are used in this index:

DAT - Died After Tour
DDT - Died During Training

KIA - Killed In Action
LIF - Life Member of the VHPA
REG - General Member of the VHPA

MIA - Missing in Action
FRD - Potential VHPA Member

1995 VHPA Directory References and Credits

The following individuals, organizations, institutions and published sources were used to prepare this edition of the VHPA Directory.

Individuals:

The following VHPA Members or Potential Members provided written material or talked to members of the Directory Committee relative to these sections:

- (1) Southeast Asia Helicopter Units: David Earley, Bill Greenhalgh, John Konek, Mike Law, and Gary Roush.
- (2) Songs: Bernie McGinley, Patrick (Rick) Kelly, and Marty Heuer.
- (3) Tandem Rotor History: Nathan Greene, Emmett Knight, John Konek, Gary Lozier, and Mike Sloniker where the main contributors. Mike Law did most of the writing and editing.
- (4) Computer art and pochet patches: Jay Riseden.
- (5) KIA, DATDDT, Flight Class Inventory: Steve Bolling, Mike Law, and Gary Roush supported by over fifteen other VHPAers as mentioned in the respective sections. VHCMA member Charlie Rains provided major updates to the KIA database.
- (6) Historical Document Inventory: Bill Greenhalgh and Bob Davies.

Published Source Material:

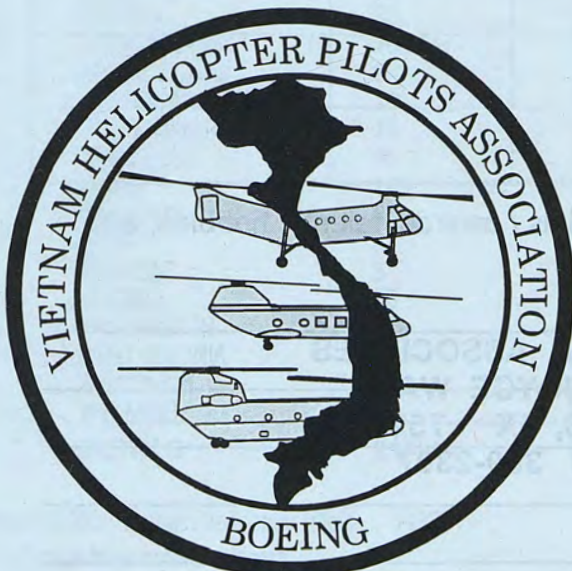

- (1) Ben Silver's *Ride At A Gallop* for the 228th ASHB material.
- (2) LTC William Fails's *Marines and Helicopters 1962 - 1973* for the CH-46 material.
- (3) Phil Chinnery's *Vietnam - The Helicopter War* published by the Naval Institute Press.
- (4) Boeing's *A Scrapbook* for the CH-21 material.
- (5) Wayne Mutza's *CH-47 Chinook in action* for the CH-47 material.

Publication and Distribution Contractors:

David Haldeman, Terradise Computer Systems, 2063 Beechmont Ave, Cincinnati, OH 45230 for desk top publishing.
George Charlsen, Rand Graphics, 500 S. Florence, Wichita, KS 87209 for printing, photo work, binding and shrinkwrap.
Kay Dawson, Contemporary Communications Inc., 435 N. Mosely, Wichita, KS 67202 for bulk mail preparation.

The VHPA Directory Committee consists of VHPA members Bob Davies, Mike Law, Jay Riseden, Gary Roush, and Mike Sloniker and VHPA's long time friend, Phil Chinnery. Bill Brown and Dianna Law, both good friends of Mike Law, support the committee by proofreading and considerable data entry.

The VHPA Membership services since the 1993 Directory were provided by Mrs. Shiela Holmes of Performance Associations under contract with the VHPA.
