Dear Bob,

I could still use those early 1968 history documents we talked about on the phone. I know you are busy; but even if I could have just one or two unit histories - I'd really appreciate it. THANKS.

Enclosed is another history that I have been working with. MAG-36's After Action Report for DOUBLE EAGLE. A friend of mine typed it into a PC and I "cleaned it up." Sadly, the document is current infected with a bothersome Word For Windows 6.0 virus. When I get it "well" I'll send you a copy.

Cheers!
