ROYALTY FREE MUSIC LICENSING

The standard license prices on the premiumbeat.com website does include use of the Recording in **television shows and radio programs** but does **not include use in a film, infomercials, TV or radio advertisement**, or any DVD, CD, video game or any downloadable product sold or given away to the general public.

TV AND RADIO BROADCAST LICENSE

The regular standard license includes music use in TV shows and radio programs. No other licensing is required, but cue-sheets must be filled for your production, filed with the appropriate performing rights organizations ("PROs", such as ASCAP, BMI or Socan) and a copy must be faxed or emailed to us.

Cue sheets? Isn't the music "Royalty-Free"? Yes it is royalty free. Once you purchase a music license from us for a specific use, you don't have to pay any additional fees. We do however require that Cue Sheets be filled out for any Broadcast uses. Broadcasters pay a fixed amount annually to their Performing Rights Organisation (PRO) for a blanket license to broadcast shows with music. PROs use this licensing income to pay royalties to the composer and publisher of the music. There is no additional cost for you, the producer, in filing these cue-sheets. Besides being a legal requirement, it will take you a few minutes and will allow our composers to receive their fair share for the public performance of their music. A cue sheet template is available here. You must fill cue-sheets for your production and fax us back a copy.
