We feel certain that this history will surpass your greatest expectations. It is an uncompromising work of the highest degree and tells a SOG man's family more about him than he would ever say about himself.

As a reminder, all profits after expenses go to cancer and heart research.

Sincerely,

Betty Amaker
 Manager, JFK Museum Gift Shop

An interesting side-note: One of the most prestigious publishers in the USA vied to print and sell the SOG History at \$75.00 per volume (\$300 per set). Since it was Harve Saal's intention to provide this quality work of American history to the public at a reasonable cost, this reprehensible profiteering was not allowed by him. He saw to it that an average citizen may purchase a four volume set for less than \$100. By selecting cancer and heart research organizations as recipients, the proceeds will benefit the largest segment of the US population. This history, therefore, assists the American public in a two-fold manner. They will learn the truths and myths about the Vietnam conflict, and they are the beneficiaries of the history's profits; sharing them with those who served in MACV-SOG. The substantive quality of these volumes surpass other historical renditions of the Vietnam conflict. Each volume's cover replicates leather and has been specially coated to protect against the Sun's damaging ultraviolet rays. The volumes' pages are printed on acid free paper and will endure for a century. These volumes are printed in the USA.
