AVHGC-DST (10 Aug 68) 2d Ind (C) MAJ Klingman/ds/LBN 4433
SUBJECT: Operational Report of Headquarters, 16th CAG for period ending
31 July 68, RUC, USFOR - 65 (BI) (U)

HEADQUARTERS, UNITED STATES ARMY, VIETNAM, APO San Francisco 96375 25 OCT 1968

TO: Commander in Chief, United States Army, Pacific, ATTN: GPOP-DT, APO
96558

1. (U) This headquarters has reviewed the Operational Report-Lessons
Learned for the quarterly period ending 31 July 1968 from Headquarters,
16th Combat Aviation Group.

2. (C) Comments follow:

a. Reference item concerning aviation assets, page 6, paragraph 2b(2):
No additional assault helicopter companies are now available or forecast to
be available in the near future.

b. Reference item concerning ballistic helmets, page 7, paragraph
2f(1)(a): Concur. Research is being conducted on the overall wearability
of the ballistic helmet. Modification kits designed to correct deficiencies
in helmets currently in RVN have been issued to using units.

c. Reference item concerning the use and training of field sanitation
teams, under the provisions of USARV Regulation 40-19, page 8, paragraph
2f(1)(b): Concur. There is no plan to discontinue this program.

DEPARTMENT OF THE ARMY
HEADQUARTERS, 16TH COMBAT AVIATION GROUP
APO San Francisco 96337

AVGM-SC

10 Aug 68

SUBJECT: Operational Report of Headquarters, 16th CAG for period ending 31 July 68, RCS, CSFOR - 65 (RI) (U)

TO: Assistant Chief of Staff for Forces Development
DA (ACSFOR, DA)
Washington, DC 20310

1. (C) SECTION I, OPERATIONS: SIGNIFICANT ACTIVITIES

a. (C) Command:

(1) General:

(a) This quarter was characterized by the utilization of the group's assets to provide aviation support throughout the ICTZ. Major activities were highlighted by divisional operations along the mountain ranges bordering the coastal plains from Khe Sanh to Ba To. In support of these divisional operations the three battalions of the group were actively involved with combat assaults, troop lifts, resupply, repositioning of artillery units (including the 155 HOW battery by use of the CH-47B helicopter) and extensive use of the group's visual reconnaissance and surveillance capability.

(b) Enemy activities: On 27 June and 12 July 68, Marble Mountain Air Facility was attacked by enemy fire with 122mm rockets (8 on 27 June; 9 on 12 July). Resultant damage was the destruction of one building and minor damage to one vehicle. There was no significant aircraft loss or damage during the above attacks.

b. (U) Mission: 16th CAG continues to remain under operational control of CG, III MAF with the organizational mission of providing command (less operational control), administration, technical supervision and professionalism of all non-divisional US Army units in the ICTZ. There has been no change in this unit's mission during the period covered by this report.

AVGM-SC

SUBJECT: Operational Report of Headquarter, 16th CAG for period ending 31 July 68, RCS, CSFOR - 65 (RI) (U)

- g. (U) Intelligence
- h. (C) Plans, Operations, Training

(1) Plans: None

(2) Operations: Group operational activities were coordinated through the three group Army Aviation Elements (AAE) located in the three major headquarters supported by the group. Significant activities occurring during the reporting period for these AAE are outlined below.

(a) AAE, III MAF:

1 Increased support of Prairie Fire operations from the Phu Bai FOB and the evacuation of Kham Duc Special Forces Camp.

2 Establishment of radio relay and command and control aircraft support for Prairie Fire operations.

3 Flight Following and Air/Fire Support Coordination instructions for ICTZ were updated.

4 Helipad directory for ICTZ was updated.

5 Coordinated helicopter support of 1st Marine Division operations Mameluke Thrust, Allen Brook and Swift Saber. These operations involved the clearing of areas 15-20 miles around DaNang.

6 Coordinated helicopter support of operation Eager Yankee in the TF X-Ray coastal area. This operation involved extensive helicopterborne operations in the 3rd Marine Division area.

7 Re-evaluation of aerial surveillance (OV-1) aircraft missions to effect improved support for PCV.

(b) I Corps AAE: Action undertaken by the I Corps AAE during the period 1 May 1968 through 31 July 1968 that are worthy of note follow:

1 Increased VNAF support of ARVN combat operations. Close liaison between the I Corps AAE, I Corps G3 Air Advisor and Air Force Advisory Team #5 (AFAT 5) has resulted in a marked increase of VNAF helicopter support of ARVN combat operations. VNAF helicopters have participated with 16th Gp Aslt Helicopters in all ARVN combat assaults during this reporting period with the exception of one operation where the LZ's were not capable of accommodating CH-34 helicopters.

CONFIDENTIAL

CONFIDENTIAL

AVGM-SC

SUBJECT: Operational Report of Headquarters, 16th CAG for period ending 31 July 68, RCS, CSFOR - 65 (RI) (U)

2 Increased helicopter support for Province Advisors. Senior Advisor of Quang Nam Province and Quang Tin Province are now being supported daily by helicopters OPCON to the Commanding Officer, I Corps Advisory Group. Senior Advisors of Quang Tri, Thua Thien and Quang Ngai Provinces are receiving helicopter support from Provisional Corps Vietnam and the Americal Division on a daily basis. This arrangement for helicopter support of Province Senior Advisors was approved by the Commanding General, III MAF and has resulted in a marked increase of helicopter flying time available to Province Senior Advisors.

(c) LAE, FMAW: The LAE, FMAW was actively engaged in the planning and execution of the following significant activities.

1 A UH-1 pilot exchange program between FMAW and 1st ACD (1/9th CAV) was effected during the period 1 May - 10 June 68. The purpose of this program was to evaluate operating procedures of the 1/9th CAV for possible adoption by Marine Forces. Although Marine reports were critical on some areas of operational procedures, they recommended that the exchange program be continued.

2 Operation Duckblind which was in the planning stage for two months became operational on 15 July 68. The Army has provided two officers and one EM to give technical assistance, equipment support and crew training to the Marine personnel involved in the operation.

3 Operation Thor: Army aircraft were used to support this operation as required visual reconnaissance aircraft requirements were beyond the capabilities of Marine assets.

4 The LAE is presently involved in a study to determine the visual reconnaissance/observation requirements for the 1st & 3rd Marine Divisions.

5 Conducted briefings for Marine Staff Personnel on the intelligence gathering capabilities of the OV-1 and the capabilities of the OH-6 observation helicopter.

(3) Training: None

i. (U) Logistics: None

j. (U) Information: None

k. (U) Surgeon: None

l. (U) Signal: None

m. (U) Aviation Safety:

CONFIDENTIAL

CONFIDENTIAL

AVGM-SC

SUBJECT: Operational Report of Headquarters, 16th CAG for period ending 31 July 68, RCS, CSFOR - 65 (RI) (U)

(1) Aviation Safety: The group flew 66,282 hours during the quarter, with an accident rate of 24.13 per 100,000 flying hours. There were sixteen (16) major accidents: ten UH-1s, four O-1s, one OH-6 and one CH-47. Eight were pilot induced seven were material failures and one was supervisory error.

(2) Total accident experience is as follows:

	<u>R/W</u>	<u>F/W</u>	<u>Total</u>
Major accidents	12	4	16
Minor accidents	0	0	0
Incidents	13	4	17
Forced landings	8	1	9
Precautionary landings	13	7	20

2. (U) Section II LESSONS LEARNED: COMMANDERS OBSERVATIONS, EVALUATIONS AND RECOMMENDATIONS:

a. (U) Personnel: None

b. (C) Operations:

(1) Night target tactical air support.

(a) Observation: Night tactical air support is difficult to obtain.

(b) Evaluation: It is extremely difficult to get responsive night Tactical Air to strike targets developed by Army SLAR/Infrared Systems in mountainous terrain. The present USAF/USA/USMC team concept only works for targets located on the coastal plains and for most daylight targets. It does not provide the responsiveness and reliability on night missions as that of organic assets.

(c) Recommendation: Evaluate present system for possible renovation to meet the requirement to provide support against night targets developed by night surveillance means.

(2) Aviation assets

(a) Observation: The drain on aviation assets is undermining the mounted warfare capability of III MAF and the ICTZ.

CONFIDENTIAL

CONFIDENTIAL

AVGM-SC

SUBJECT: Operational Report of Headquarters, 16th CAG for period ending 31 July 68, RCS, CSFOR - 65 (RI) (U)

(b) Evaluation: Based on a recent USARV study, there is a requirement for four additional AHC in the ICTZ. These Aviation Units are needed to support Prov Camps Vietnam, two ARVN divisions, CORDS and the Special Forces. In addition, one Armed Helicopter Company is needed to support the many US and ARVN operations which frequently extend beyond Arty range of fire bases.

(c) Recommendations:

1 To reduce the deficit of utility helicopters within the ICTZ, an additional four AHC should be assigned to the 16th Combat Aviation Group to provide general support to PCV units, two ARVN divisions, CORDS and the Special Forces.

2 Further recommend that one armed helicopter company be assigned to the 16th Combat Aviation Group for general support of tactical operations within I Corps.

- c. (U) Intelligence: None
- d. (U) Logistics: None
- e. (U) Organizational: None
- f. (U) Other

(1) Surgeon

(a) Ballistic Helmets

1 Observation: The greatest problem with the ballistic helmet seems to be in sizing which does not correspond with that of the APH-5. Few can wear the medium-sized ballistic helmet and find it comfortable. This problem has resulted in a near depletion of the stock of large ballistic helmets and an abundance of medium and small sizes.

2 Evaluation: The role of the ballistic helmet in the prevention of head injury seems to have been fairly well established since its introduction into Vietnam. It has been found, however, that many crew members do not wear this helmet, preferring the older APH-5. The most common reason given for not wearing the ballistic helmet is discomfort. It has been learned that the helmet can be modified for better fit and better wearability with no decrease in protection. By cutting out a semicircle in the polystyrene liner so the earphone can recess more completely, and removing a coil or two of the earphone springs, a more comfortable fit is possible. It also helps to tie the earphones fully out and to use the older sizing pads. A block of wood may be placed between the earguards when the helmet is stored to effect a slight increase in lateral size.

CONFIDENTIAL

CONFIDENTIAL

AVGM-SC

SUBJECT: Operational Report of Headquarters, 16th CAG for period ending 31 July 68, RCS, CSFOR - 65 (RI) (U)

3 Recommendations:

a Research be conducted on the ballistic helmet to afford overall wearability

b Individual modifications be made on helmets which may improve the fit.

(b) Field Sanitation Teams

1 Observations: The role of the field sanitation teams in environmental health is an established fact in those remote areas outside fixed installations where PA&E or Public Works does not function.

2 Evaluation: In the fixed base operations where PA&E or Public Works is responsible for environmental health, the field sanitation teams appointed UP USARV Reg. 40-19 supplement the major duties of these contractual agencies. On occasion, as recently, PA&E loses certain of these contractual responsibilities and the field sanitation teams become immediately of instrumental importance in the areas of rodent control, insect control and field sanitation. The 16 hour instruction period set up by the surgeons section under the USARV Reg. 40-19 then becomes an invaluable asset in maintaining the health of the command.

3 Recommendations:

a That UP USARV Reg. 40-19 the Field Sanitation Teams continue to be appointed and properly instructed in field and environmental health.

b That surgeons make full use of these teams as an invaluable aid, supplemental or primary, in maintaining the health of the command.

AVBA-C (10 Aug 68) 1st Ind

SUBJECT: Operational Report of Headquarters, 16th Combat Aviation Group
for Period Ending 31 July 1968, RCS CSFOR-65 (R1) (U)

DA, HEADQUARTERS, 1ST AVIATION BRIGADE, APO 96384 SEP 5 1968

THRU: Commanding General, United States Army Vietnam, ATTN: AVHGC-DST,
APO 96375
Commander in Chief, United States Army Pacific, ATTN: GPOP-OT,
APO 96558

TO: Assistant Chief of Staff for Force Development, Department of the
Army, Washington, D.C. 20310

1. (U) This headquarters has reviewed this report, considers it to
be adequate, and concurs with the contents.

2. (C) The following additional comments are considered pertinent:

a. Paragraph 1b, page 1. The 16th Combat Aviation Group's mission
is incorrectly stated. Correct mission as stated in the Brigade LOI is
to provide aviation support, as directed, to US, ARVN, and other Free
World Military Assistance Forces for the conduct of combat and logistical
counterinsurgency operations.

b. Paragraph 2b(2), page 6. This headquarters is unable to
evaluate the requirement for additional AHC in the I CTZ. Assignment
priorities for AHC are determined by MACV based on recommendations made
by major tactical headquarters.

c. Paragraph 2f(1)(a), page 7. Research on the anti-fragmentation
helmet has been and is being conducted by the appropriate Department of
the Army agency. Recommended individual modification to the ballistic
helmet is contained in DA MWO 10-8415-202-30/4 which has been repro-
duced in the October 1967 Supply and Maintenance Letter of the 1st
Aviation Brigade.
