

Today.....

CAMP RANIER...A.K.A..DAU TIENG

After reading this history, I would appreciate any input you care to share. Express what you remember during your tour, in the rubber, at Camp Ranier. Those experiences are things I need to know, in order to put together an accurate account of what we all experienced in NAM.

Most of the units in our Area of Operations, participated in the same major operations, to some degree. Your recollections of these contacts, ambushes around Dau Tieng, hot L.Z.s, hot P.Z.s, Eagle flights, Search and Destroy missions, Combat Assaults and approximate dates during 1967 and 1968 would be very helpful.

Things that were unique to Dau Tieng, e.i. the olympic size swimming pool next to the 188th Company area, the air field, the Chapels, P.X.'s and the French buildings. Also, any info on the civilian workers (V.C.) we had on post. Any quality photos of Camp Ranier and the village of Dau Tieng or our A.O. would be copied and returned to you ASAP. I'm looking for any extra unit patches I can use to enhance our history at DAU TIENG.

WELCOME HOME !!!!!!!!!!!!!!!!!!!!!!!
