SUBJECT: Operational Report for Quarterly Period Ending 31 July 1970
 TAB L: Provost Marshal Activities

1. During the period 1 May 70 - 31 July 1970, the Office of the Provost Marshal processed a total of seven hundred thirty-nine (739) offenses.

a. Offense Statistics:

Crimes against persons/property	250
Miscellaneous offenses	134
Military offenses	187
Traffic offenses	168
TOTAL	739

b. Breakdown of offense statistics:

(1) Crime against persons/property: 250, Murder - 2, Man-slaughter - 2, Aggravated Assault - 13, Simple Assault - 20, Robbery - 3, Housebreaking/Burglary - 23, Larceny over \$50.00 - 142, Larceny under \$50.00 - 45.

(2) Miscellaneous Offenses: 134, Disorderly conduct - 19, Drunkenness - 6, Narcotics, Dangerous Drugs and Marijuana - 97, Black-marketing - 7, Trespassing - 5.

(3) Military Offenses: 187, AWOL - 40, Pass Violation - 34, Off Limits - 88, Curfew Violations - 11, Uniform Violation - 6, Unlawful discharge of firearm - 4, weapon violation - 2, Escape from Custody - 2.

(4) Traffic Violations: 168, Speeding - 35, Reckless Driving - 7, Fleeing the scene of a traffic accident - 5, Parking Violation - 6, Miscellaneous Violations - 100.

c. Comments on Offender Statistics:

(1) The over-all offense rate increased 01% over the last reporting period.

(a)	Crimes against persons/property increased	19%
(b)	Miscellaneous offenses increased	25%
(c)	Military offenses increased	58%
(d)	Traffic offenses decreased	76%

(2) Significant changes with regard to particular offenses reported during the previous period are as follows:

(a) Twenty-five robberies and housebreaking/burglaries were reported during the period 1 May - 31 July; none were reported during the previous reporting period. This increase is due in part to a change in reporting policy, which incorporated a greater number of cases into the robbery/burglary category.

SUBJECT: Operational Report for Quarterly Period Ending 31 July 1970
 TAB L: Provost Marshal Activities (Cont)

(b) During the past reporting period ninety-seven Narcotics, Dangerous Drugs and Marijuana cases were reported as opposed to seventy-eight the previous period. This increase can be credited to the added emphasis placed upon enforcement in this area over the last reporting period.

(c) Forty AWOL's were reported during the period 1 May - 31 July; Nine cases of AWOL were reported during the previous reporting period. This increase is due to a change in reporting procedures during the last reporting period.

(d) Thirty-four pass violations were reported this period as opposed to one case last period; eighty-eight off-limits cases were reported this period with forty-six cases the previous period; and eleven curfew violations were reported during the period as opposed to three cases the previous reporting period. It is felt that the increase in pass violations, off-limits violations and curfew violations is due to the "standdown" status of 1 ACD units on Bien Hoa Army Base and an increased enforcement emphasis in the Long Binh-Bien Hoa-Saigon Area.

2. During the period 1 May - 31 July, the office of the Provost Marshal processed a total of three hundred fifty-three detainees:

<u>DETAINEE STATISTICS:</u>	<u>MAY</u>	<u>JUNE</u>	<u>JULY</u>	<u>TOTAL</u>

(b) Falciparum	275
(c) Unknown	0
(2) FUO	783
(3) Psychiatric Cases	114
(4) Others	17
c. Remaining in hospital	127

2. Discussion of Disease:

a. There were 384 cases of malaria in this division from 1 May 70 to 31 July 70. 109 of these cases were attributed to Plasmodium vivax, and were caused, in most cases, by failure to take the weekly Chloroquine-Primaquine Prophylaxis.

(1) The malaria incidence is as follows:

(b) The increase in the number of malaria cases during the period resulted from increased exposure due to the number of troops in the field, increased exposure due to the operations in hyperendemic areas which were recently NVA sanctuaries, and seasonal increases associated with the monsoon.

(2) Other selected disease of importance are as follows:

Immersion Foot	0
Heat Exhaustion	25
Poisoning	0
Animal Bites	36
Hepatitis	12
Dengue Fever	0
Infectious Meningitis	2
Scrub Typhus	0

3. WIA: From 1 May through 31 July 70, the 15th Medical Battalion treated a total of 1048 U.S. Army personnel who were WIA. Of these, 778 admitted and 270 were CRO.

TAB N: Logistics Operations

1. Significant Activities:

a. During the reporting period 1 May 1970 to 31 July 1970, the Division Support Command (DISCOM) continued to support the 1st Cavalry Division (Airmobile) in all operations. Combat service support provided and/or coordinated by DISCOM included supplies, maintenance, medical services, transportation, evacuation of captured enemy material, bath, laundry, graves registration and explosive ordnance disposal for the 1st Cavalry Division (Airmobile) organic and attached elements. Support to the Division increased dramatically with the First Team's role in the Cambodian operation during the months of May and June.

(1) The First Forward Service Support Element (FSSE) provided logistical combat support to Division maneuver battalions assigned to the 1st Brigade. Classes I, II, III, IV, and IX as well as direct maintenance support, medical service and air transportation support were provided by DISCOM elements from the 1st Brigades base camps at TAY NINH. During the month of August, all support to the 1st Brigade displaced with the 1st Brigade to BIEN HOA with no delay in support being provided during the move.

(a) Forward Supply Points (Mini-FSSE's) were established at KATUM and at LOC NINH to further facilitate the movement of supplies to the First Team in Cambodia. Tactical helicopter refuel points were established at both locations, an 8 point, 30,000 gallon capacity semi-permanent site was established at KATUM and a temporary site operating from collapsible fuel drums was established at LOC NINH.

(b) CH-47 sling out pads were established at both KATUM and LOC NINH and a direct fixed wing to rotary wing transfer and sling out operation was maintained and controlled by the 1st FSSE for the duration of the Cambodian operation.

(c) Upon completion of the withdrawal from Cambodia on 29 June, a realignment of the 1st Brigade Area of Operations necessitated coordinating and carrying out the displacement of the entire 1st Brigade from TAY NINH to BIEN HOA. The 1st FSSE closed out both KATUM and LOC NINH on 23 June and 25 June respectively and began planning for the movement of the 1st Brigade. An advance party was sent to BIEN HOA to arrange for interim support to the Brigade while the main body moved. A rear element remained in TAY NINH until the 1st Brigade had completely displaced. The move was completed on 18 July 1970 without incident.

(d) During the report period a total of 1,074 tons and 5,021 passengers were flown out of the helipad by CH-7 helicopters with an additional total of 207 tons and 522 passengers flown into the helipad. CH-54 helicopters carried 203 tons out and 56 tons into the helicopters pad. The Movement Team located at TAY NINH Airfield reported 137 tons and 2,807 passengers flown in and 317 tons and 3,378 passengers flown out of the airfield.

(2) The 2d FSSE supported the 2d Brigade, 1st Cavalry Division (Airmobile) and attached units based at and operation out of Fire Support Base Buttons. Classes I, II, III, IV, and V as well as medical service, maintenance support and air transportation support were provided by DISCOM elements during the reporting period.

(a) In support of the Cambodian operation the 2d FSSE established a Forward Supply Point at BU GIA MAP and in conjunction with the 3d FSSE also established a Forward Supply Point at BU DOP. Direct fixed wing to rotary wing sling out operations were established with limited Class V storage facilities also established at both locations.

(b) To support the rotary wing operations out of both BU GIA MAP and BU DOP, helicopter refuel points were set up. Initially each location was established with an 8 point, 30,000 gallon capacity JP-4 refuel point. BU DOP was later increased to 40,000 gallon capacity on 15 June 1970.

(c) During the reporting period a total of 24,016 tons were flown out of the helipad with an additional 8612 tons flown into the helipad. CH-54 helicopter carried 6482 tons out and 1340 tons into the helipad. The movement team located at SONG BE Airfield reported 13267 tons and 8199 passengers flown in and 2952 tons and 11062 passengers flown out of the airfield.

(3) The 3rd FSSE supported the 3rd Brigade, 1st Cavalry Division (Airmobile) and attached units based in and operating from QUAN LOI. Classes I, II, III, IV, and IX as well as medical service maintenance support and rotary wing transportation support were provided during the entire reporting period.

(a) In support of the Cambodian operations the 3d FSSE established Forward Supply Points at TONLE CHAM, and in conjunction with the 2d FSSE, at BU DOP. Direct fixed wing to rotary wing sling out during the Cambodian operation was accomplished.

(b) To support the rotary wing operation a temporary helicopter refuel point was established at TONLE CHAM utilizing collapsible fuel drums which permitted flexibility in maintaining selected amounts of fuel on location at all times.

(c) The 3rd FSSE assumed complete control and operation of the Forward Supply Point at BU DOP on 21 June 1970 and closed the point and retrograded all material by 18 July 1970.

(d) During the reporting period a total of 27338 tons were flown out of the helipad with an additional 9112 tons flown into the helipad. CH-54 helicopters carried 273 tons out of and 91 into the helipad. The movement team located at the QUAN LOI airfield reported 1268 tons and 7115 passengers flown in and 1577 tons and 7187 passengers flown out of the airfield.

b. During the period a total of 34,980.8 tons and 45,726 passengers were flown from BIEN HOA in support of The First Team. A total of 173 Combat Essential and 26 Tactical Essential air movements were flown from BIEN HOA. All movements were coordinated and controlled by DISCOM elements.

c. During this reporting period, the 27th Maintenance Battalion continued to provide its normal direct support maintenance and repair parts supply for all ground equipment (less medical and cryptographic) of the FIRST TEAM. This "Anywhere-Anytime" support was evident in the fact that the following percentage of equipment was operational at the end of the quarter:

<u>CATEGORY</u>	<u>%OPERATIONAL</u>
Vehicles.....	97.45%
Artillery.....	100.00%
Generators.....	92.49%
Communications.....	90.33%

(1). During the quarter there were 126 technical assistance visits conducted by the Battalion.

(2). The Battalion's AIM TEAM visited a total of 33 units during the reported period.

(3). The disposition of element of the Battalion as of 25 July 1970 was as follows:

Headquarter and Company A...Bien Hoa
 Main Support Detachment.....Phuoc Vinh
 B Detachment.....Quan Loi

(3) The forward platoon at Tay Ninh was closed as the 1st Brigade moved out of the area. Personnel and equipment remaining were returned to Bien Hoa while a forklift driver stayed behind to assist brigade units in completing their move.

(4) At Bien Hoa, the Main Supply Platoon turned over Castle Pad to the 229th Assault Helicopter Battalion. Hook-out operations are now being conducted from Dallas Pad pending completion of the new hook-out area in "D" yard. The lumber yard is being moved to a new location in "D" yard to escape water damage caused by heavy rains.

(5) New refrigeration units have been installed at the Class I yard to improve cold storage capability.

(6) The sling-out tonnage for the period 1 May 1970 thru 30 June 1970 has been the highest for any single two month period in the history of this unit. During the month May, 24,933 tons of material were rigged and delivered by 6,486 external helilift sorties- the highest monthly total in this unit's history.

(7) Red Hats in the Bien Hoa area continued to present sling-out instruction to each group of personnel going through the First Team Academy.

TAB N:

(2) The Air Ambulance Platoon normally deploys one Medevac helicopter with each Medical Company in direct support of a Brigade with the remaining nine Medevac helicopters stationed at Phuoc Vinh. On 1 May 1970 this deployment was changed to best support tactical operations. Three (3) Helicopters were lagged at C Co 15th Med Bn and one (1) helicopter at 37th Med Co, 11th AGR, both located at Quan Loi. One (1) helicopter was stationed at A Co, 15th Med Bn, Tay Ninh until 4 May 1970 when the aircraft deployed to Katum where it remained until 24 May 1970. One (1) Ship remained at B Co 15th Med Bn, FSB Buttons and on 6 May 70 an additional helicopter was sent to Bu Dop.

(3) During the reporting period the Air Ambulance Platoon has flown 2549 missions, accruing 2713:05 hours flying time and evacuated 4,487 patients of which 471 were hoist patients. Eighteen ships have been damaged by hostile fire, five of which total combat loss. One crew member was killed and eight wounded.

(4) A Command Medical Operations Center (CMOC), consisting of the Battalion Commander, the S-3, assistant air operations officer of the Air Ambulance Platoon, and two radio operators, was established at Quan Loi on 1 May 1970. The CMOC provides coordination with higher support and tactical forward CP's.

c. Company A provided medical support to the 1st Brigade during the period 1 May 1970 thru 4 May 1970. On 4 May 1970 the 1st Brigade deployed a jump CP and Company A provided a medical support to units remaining at 1st Brigade Rear, Tay Ninh. On 29 June 1970 Company A moved to Bien Hoa Army Base with the 1st Brigade and resumed their mission of providing medical support to the 1st Brigade.

d. Company B continued to provide medical support to the 2nd Brigade and all OPCON units. During the latter part of May 1970 Company B also provided medical support to 1st Brigade (FWD) and its maneuver Battalions.

e. Company C continued to provide medical support to the 3rd Brigade and all OPCON UNITS, less the 11th AGR, which has its own medical support. Company C had the responsibility of providing medical support to Task Force Shoemaker on 1 May. When the 1st Brigade became OPCON on 4 May and established a Jump CP at Quan Loi, Company C also assumed responsibility of 1st Brigade medical support.

f. The MEDCAPS and DETCAP programs have been an area of emphasis throughout the quarter. The four companies of the 15th Medical Battalion have participated in 61 MEDCAPS treating a total of 3092 patients and 3 DETCAPS with a total of 31 patients.

f. During the reporting period 1 May 1970 through 31 July 1970, the 15th Medical Battalion continued to provide complete division level and unit level medical support to the First Team. The 15th Medical Battalion was employed as follows:

- (1) HQ & Spt.....Camp Gorvard
- (2) A Co.....Tay Ninh Base Camp thru 29 June
 Bien Hoa Army Base 30 June thru 31 July
- (3) B Co.....FSB Buttons
- (4) C Co.....Quan Loi

(a) The Battalion Headquarters provided administrative and logistic support to elements of the 15th Medical Battalion, as well as medical evacuation, psychiatric, optometry and medical supply services for all units of the First Team.

(b) Headquarters and Support Company provided medical support to the division base camp at Phuoc Vinh, Division Rear at Bien Hoa and back up support to the letter companies of the 15th Medical Battalion. The Air Ambulance Platoon provided aeromedical evacuation for the 1st Cavalry Division as well as non-Cavalry units working within the Division's area of operations.

(1) During this reporting period Headquarters and Support Company dispatched two (2) Emergency Medical Teams to act as forward triage and treatment units in support of the Cambodian operation. Both teams had the capability of emergency surgery, whole blood infusion and stabilization of critically injured patients.

(a) Team #1, consisting of one (1) doctor, six (6) enlisted medics and one (1) radio operator, was collocated with the Special Forces Camp at Katum on 1 May 1970. This team provided sick call support for indigenous personnel associated with the Special Forces Camp in addition to their medical support mission. A Medevac helicopter was laged at Katum during daylight hours and returned to Quan Loi at dark. Logistical support came from Headquarters and Support Company through Quan Loi. Radio operator augmentation was furnished by both A&C Companies.

(b) Team #2, consisting of one (1) doctor, six (6) enlisted medics and two (2) radio operators, was collocated with the Special forces Camp at Bu Dop on 6 May 1970. One Medevac helicopter was laged at Bu Dop during daylight hours and returned to FSB Buttons with the remainder of the logistical support provided by Headquarters and Support Company.

1. (U) Population and Resources Control

a. Refugees

(1) The Cambodian Operation produced an influx in refugee population that required coordination with various GVN agencies. The FIRST TEAM processed 2,650 refugees from 1st ACD AO and an additional 1,137 refugees that were generated outside 1st ACD AO during the operation.

(2) 801.8 tons of rice was captured during the Cambodian Operation and was the primary source of food supply for refugees in the FIRST TEAM AO. Coordination was made with GVN agencies prior to distribution of food in the FIRST TEAM AO.

b. Security Control: During the reporting period the Division provided supplies for the upgrading of FSDF defenses throughout the AO.

2. (U) Civic Action

a. Arrangements were made to distribute various captured equipment to GVN agencies in the FIRST TEAM AO.

b. 801.8 tons of rice was extracted during the reporting period and the majority of this was distributed to refugee centers in the 1st ACD AO.

c. Project Understanding Phase II was conducted on 25 July 1970. The purpose of this operation was for the children of rural areas to visit Saigon and the main seat of government.

SUBJECT: Operational Report for Quarterly Period Ending 31 July 1970
TAB O: Psychological Operations

1. (C) General

a. The quarter began with the 1st Cav operations in Cambodia. While the first ARVN and Allied units were moving across the border leaflets and tapes were made, targeting units identified by G2. The initial leaflets and tapes carried messages telling the enemy that GVN and Allied forces were interdicting their supply lines and formerly safe base areas in Cambodia. As cache sites were discovered leaflets picturing the contents were developed with messages addressing the units as identified by documents and PW's. Daily broadcast in the areas reminded the enemy his sanctuaries were no longer safe havens and described the effects that the losses of food, weapons, ammunition and medicine would have on him in the months to come.

b. During the Cambodian operation 9,000,000 special leaflets were dropped targeting the 7th NVA Division, 5th VC Division, 95C Regiment, 275th Regiment, 165th Regiment, 174th Regiment, 141st Regiment, 86th Rear Service Group, 50th Rear Service Group and 90th R&R. One hundred and fifty-four hours of broadcast were made against these same units. In addition 33,000,000 general leaflets were dropped. These leaflets were divisive in nature: telling NVA soldiers of the success of the GVN and Allied operations, the desertion of their COSVN Headquarters, and the benefits that they would receive by giving up their hopeless struggle. 178 hours of broadcast time was devoted to these same topics. Tapes and leaflets in Cambodian were developed to explain the operations to civilians. 126 Hoi Chanh came in to the GVN/Allied forces.

2. (C) Support

a. II FFORCEV provided two O2B8s and a C-123 on a daily basis with a C-47 every other night for night broadcast missions to augment Brigade organic aircraft.

b. As the last troops returned to South Viet Nam the Brigades turned their attention to local force units in their respective AO's. Tapes and leaflets exploiting the Cambodian successes were developed and targeted against the K-16, K-17, K-28, and K-29 local force units operating in Phuoc Long, Phuoc Hoa Guerrillas, Phuoc Sang, and D-368 respectively.

c. The Second Brigade initiated a campaign to coax Montagnards in Phuoc Long Province away from VC control during the month of July. 49 Montagnards rallied to GVN: 6 of these were declared Hoi Chanh.

d. DIVARTY began a program for publicizing the VIP program within AO Chief.

e. Throughout the Division greater emphasis was placed on coordination by the S5's with province and ARVN officials stressing Vietnamization at all levels.

TAB R: Kit Carson Scouts

The deployment of the 1st Cavalry Division (AM) into Cambodia created a need for additional Cambodian-speaking Kit Carson Scouts. 158 Cambodian Scouts, formerly with the 1st Infantry Division, were recruited, briefed, equipped and deployed to units operating in Cambodia as part of Task Force Shoemaker. Most had worked in the Vietnamese-Cambodian border area as members of the Cambodian KKK. The Cambodian scouts were instrumental in handling refugees, preparing leaflets and tapes for PSYOP, interrogating PW's and Hoi Chanh and assisting with MEDCAPS. All reports have been complimentary regarding the performance of Cambodian Scouts.

SUBJECT: Operational Report for Quarterly Period Ending 31 July 1970
TAB S: Chemical Activities

1. Operations: During the reporting period 1 May 1970 - 31 July 1970, Division Chemical, the 184th Chemical Platoon and the 26th Chemical Detachment conducted chemical support activities for the 1st Cavalry Division (AM). First Team chemical personnel continued to support the Division in the following areas: Airborne Personnel Detection, CS employment, Defoliation, Flame utilization and Training and Inspections.

a. A much greater demand for the "Mini-BURB" (i.e. Bunker Use Restriction Bomb) was received during the reporting period. This CS-filled munition has proved very successful in contaminating bunkers.

b. Four (04) NVA reported killed resulting from the use of E158R2's.

c. Airborne Personnel Detector ("Sniffer") missions resulted in fourteen (14) NVA KIA's, the discovery of several vehicles, and findings such as a POL dump, numerous bunkers, huts and rafts.

d. Three members of the 1st ARVN Airborne Division were trained to operate and maintain "Sniffer" as well as conduct Sniffer missions.
