Major changes in the Southeast Asia Automatic Telephone System dial capabilities have been effected since the publication of the last U. S. Government Agencies Vietnam Telephone Directory. Pleiku Tandem Switching Area has been discontinued. Subscribers may access Pleiku Dial Exchange by dialing:

- 8-941-XXXX Tan Son Nhut Tandem Area Subscribers
- 8-941-XXXX Can Tho Tandem Area Subscribers
- 7-941-XXXX Nha Trang Tandem Area Subscribers
- 7-941-XXXX Da Nang Tandem Area Subscribers
- 8-941-XXXX Vung Chua Mtn Tandem Area Subscribers

Pleiku dial exchange subscribers may access subscribers of dial exchanges in the Southeast Asia Automatic Telephone System by dialing:

- 8-Prefix-XXXX Tan Son Nhut Tandem Area
- 8-Prefix-XXXX Can Tho Tandem Area
- 7-Prefix-XXXX Nha Trang Tandem Area
- 7-Prefix-XXXX Da Nang Tandem Area
- 7-Prefix-XXXX Vung Chua Mtn Tandem Area

Although Pleiku Dial Exchange may access other tandem areas, the Tan Son Nhut Tandem Area is its primary entry to the Southeast Asia Automatic Telephone System.

The An Khe Dial Exchange has been deactivated and is now served by a manual switchboard. An Khe Manual Telephone Exchange is now accessed thru the Qui Nhon Dial Exchange. LZ English is also accessed thru the Qui Nhon Dial Exchange. Ban Me Thuot is now accessed thru the Nha Trang Dial Exchange.

The Cu Chi Dial Exchange has been deactivated. An RVN AF Manual Switchboard will replace the Cu Chi Dial Exchange.

A Vietnamization Program is now in progress in regards to many manual switchboards serving units throughout Vietnam. For best results in accessing these switchboards please contact your operator.

GENERAL INFORMATION

1. REQUESTS FOR TELEPHONE SERVICE:

In order to facilitate and expedite telephone installations, moves and disconnections, a Telephone Coordinator should be established at each unit headquarters or separate activity. The coordinator will in turn contact the local telephone office on all telephone matters for his unit or activity.

A. US MILITARY TELEPHONE SERVICE

Requests are submitted on DA Form 11-154 - REQUEST FOR TELEPHONE SERVICE - (Army) and AF Form 1070 - TELEPHONE SERVICE REQUEST - (Air Force). Requests must be carefully screened for adequate justification and for completeness of information by the responsible telephone control officer of the activity requesting the service. Such information should include, as a minimum:

- (1) Name and mailing address of activity requesting service.
- (2) Location at which service is desired, e.g., street address, building number; room number, and/or desk. Information such as grid coordinates, nearest cross street, nearest landmark, etc., is also helpful.
- (3) Name and telephone number of person with knowledge of exact location at which service is desired.
- (4) Nature of service desired - mainline, extension, relocation, removal, etc., and number of mainlines and/or extensions involved. A maximum of three (3) extensions will be authorized per mainline.
- (5) Complete directory listing for each subscriber involved.
- (6) Number of mainlines and extensions already in existence at activity requesting service.
- (7) Sketch map and/or floor plan if needed for clarification.
- (8) Each request should specify class of service, either Class A-1, Class A-2, Class A-3, or Class C as described below:

(a) Class A-1 and Class A-2: US Dial Telephone Service for transaction of official business by US Military and Government Agencies. Class A-1 and Class A-2 service is authorized entry to AUTOVON, Joint Overseas Switchboard and Southeast Asia Automatic Telephone System. In addition this class of service is authorized dial access to and from local civilian (PTT) and Vietnamese Military (ARVN) exchanges.

(b) Class A-3: US Dial Telephone Service for transaction of official business by US Military and Government Agencies. Class A-3 services is authorized entry to the Southeast Asia Automatic Telephone Sys-

tem to the extent that Class A-3 subscribers are limited to placing long distance calls to Thailand and the Republic of Vietnam. Class-3 service is NOT authorized AUTOVON service. Class A-3 service is authorized entry to PTT and ARVN exchanges

(c) Class C: US Dial Telephone Service for transaction of official business by US Military and Government Agencies. Class C subscribers are not authorized entry to the Southeast Asia Automatic Telephone System. They are normally limited to placing calls only within the limits of the local dial exchange. In some cases Class C subscribers may call other exchanges within the Tandem area. Please check the dialing charts located in front of each Tandem area in the directory.

NOTE: The design criteria of the Military Dial Telephone Exchange (DTE) requires that not more than 20% of the telephones served be provided Class A service; therefore, telephones classified as such must be held to the minimum essential required.

B. VIETNAMESE CIVILIAN, PTT, AND ARVN SERVICE: Requests will be submitted as in A above with the following additional information:

- (1) Justification for the need for commercial or Vietnamese Military service, and why US Military Telephone Service is not suitable.
- (2) Activity to be billed for the service.

C. Requests for telephone service in the Saigon area should be submitted to the Telephone Management Office, USASTRATCOM Signal Support Agency Saigon, APO 96307.

D. Requests for telephone service in the Long Binh area should be submitted to the Telephone Management Office, (TMO), Hq 160th Signal Group, APO 96491.

E. Requests for telephone service on Tan Son Nhut Air Base should be submitted to the 1876th Communications Squadron, APO 96307, ATTN: TC.

F. Requests for telephone service outside the Saigon/Long Binh area should be submitted to the Communications Officer of the area or installation concerned or the OIC of the local Dial Telephone Exchange.

G. Telephones and telephone equipment will be maintained and moved by authorized personnel only. Unauthorized tampering with telephone equipment may result in loss of service. Telephone service calls should be directed to the numbers that are listed under SERVICE NUMBERS of each exchange.

GENERAL INFORMATION (CONT'D)

2. TO IMPROVE YOUR TELEPHONE SERVICE:

A. Always consult your directory for correct listing. Call by number for faster service

B. Should you not immediately receive dial tone, be patient, hold for about twenty (20) seconds, then hang up and try again. (Pause in receiving dial tone is due to busy line equipment.)

C. Identify yourself immediately to the first person answering the called number.

3. POOR OPERATOR SERVICE:

The procedure for registering complaints concerning poor operator service is as follows:

A. Ask for the Chief Operator.

(1) Tell the Chief Operator the position number.

(2) Explain to the Chief Operator the nature of your complaint.

4. MONITORING OF TELEPHONE CALLS:

A. Your telephone call may be monitored for unofficial traffic, vulgarity, and discussion of classified information.

B. Any telephone circuit in the Military Telephone System is subject to monitoring by authorized representatives of the US Government for the purpose of determining abuses of the Joint Uniform Telephone Communications Precedence System and security violations.

5. PERSONAL OVERSEAS TELEPHONE SERVICE:

A. Personal overseas telephone service is available in the following localities: Saigon, Phu Bai, Da Nang, Chu Lai, Cam Ranh Bay, Long Binh, Nha Trang, Phu Cat, Qui Nhon, An Khe, Pleiku Air, Pleiku LSA, Quang Tri, Plantation, and Tan Son Nhut. Personnel desiring to take advantage of this service should contact their local USO or Red Cross representative to determine the exact location of the facilities and the operating schedule.

(1) For station-to-station calls the rate is \$3.30 per minute. For person-to-person calls the rate is \$4.40 for the first

three minutes and \$3.30 for each minute thereafter. These rates include taxes.

(2) No reservations will be accepted. Service is provided on a first-come first-served basis. The only priority accepted is a Red Cross verified emergency.

(3) Calls may be placed from USO facilities to CONUS, Alaska, Hawaii, Puerto Rico, Canada, Virgin Islands, and Mexico.

B. Personal calls to other countries must be made from the PTT Building, #2 John F. Kennedy Square, Saigon.

6. INFORMATION CONCERNING ARVN AND PTT TELEPHONE SERVICE:

A. ARVN (Vietnamese Military) and PTT (Vietnamese Civilian) telephone systems are independent systems:

(1) Telephone numbers in the ARVN exchange systems are:
90 30000 thru 32979, 99 50000 thru 51939
99 40000 thru 41779 99 60000 thru 61779

(2) Telephone numbers in the PTT exchange are:
90 20000 thru 25999 (Saigon Area)
90 36000 thru 38399 (Cholon Area)
90 40000 thru 41999 (Gia Dinh Area)
90 50000 thru 51999 (Cholon Area)
90 90000 thru 93999 (Saigon Area)

B. To reach a PTT number from and ARVN "Class A", "B" and "C" telephone, dial 2, wait for dial tone, then dial number.

C. "Class D" ARVN telephone subscribers cannot dial into the PTT system.

D. "Class A & B" ARVN telephone subscribers can dial 110 to get LD service.

E. PTT telephone subscribers can dial directly into ARVN telephone exchange using the following instructions:

(1) PTT #90 36000 to 90 38399 dial 8, wait for dial tone then dial number desired.

(2) PTT #90 40000 to 90 44999 and PTT #90 90000 to 90 93999 dial 88, then dial number desired.

(3) PTT #90 20000 to 90 25999 dial -24911 and -24575, ask operator for number desired.

UNITED STATES GOVERNMENT AGENCIES VIETNAM TELEPHONE DIRECTORY SERVICE

The US Government Agencies Vietnam Telephone Directory is published semi-annually. This directory provides official information for use by the State Department and military activities in RVN.

Day by day changes to telephone listings and/or any inquiries concerning this directory should be sent to:

Commanding General
1st Signal Brigade (USASTRATCOM)
ATTN: SCCPV-TLMA
APO San Francisco 96384

Listings for each new directory will be verified prior to publication, in accordance with MACV directive 105-5.

Initial distribution of new directories will be in accordance with MACV directive 105-5. Requests for additional directories should be made to your local dial telephone exchange.

This directory was published on 1 February 1971. All previous issues are cancelled and should be destroyed. Use of obsolete directories will result in poor telephone service.

**Information in this directory is provided
solely by the telephone subscriber.**

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM GENERAL INSTRUCTIONS

1. The Joint Uniform Telephone Communications Precedence System, which became effective 1 September 1965, is directed for use by all authorized users of the voice communication facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

2. The Joint Uniform Telephone Communications Precedence System does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.

3. Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition one or Defense Emergency and CINCNORAD when declaring either Defense condition one or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

4. The precedence indicators listed on the following page are directed for joint use and specify, by military precedence designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM CHART

MILITARY PRECEDENCE DESIGNATOR

FLASH

TRANSMISSION PRE-EMPTION

Has Precedence over any other telephone call of lower precedence. Pre-empts lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability available to: (1) President of the US, Secretary of Defense and Joint Chiefs of Staff; (2) Commanders of Unified and Specified Commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency.

IMMEDIATE

Has Precedence over any other telephonic call of lower precedence calls. Pre-empts lower precedence calls.

PRIORITY

Has Precedence over any other telephonic calls of lower precedence. Pre-empts lower precedence calls.

ROUTINE

Has no Precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.

APPLICATION

Flash Precedence is reserved for alerts warnings, or other emergency actions having immediate bearing on national, command, or area security. (e.g., Presidential use; announcement of an alert; land, air, or sea catastrophes; intelligence reports on matters leading to enemy attack; potential or actual nuclear accident or incident; implementation of services unilateral emergency actions procedures, etc.)

Immediate Precedence is reserved for vital communications (1) having an immediate operational effect on tactical operations, (2) which directly concern safety or rescue operations, (3) which affect the intelligence community operational role. (e.g., Initial vital reports of damage due to enemy action; land, sea or air reports which must be completed from vehicles in motion such as operational mission aircraft; intelligence reports on vital action in progress; natural disaster or widespread damage; emergency weather reports having an immediate bearing on mission in progress; emergency use for circuit restoration; use by tactical command posts for passing immediate operational traffic, etc.)

Priority Precedence is reserved for calls which require prompt completion for national defense and security, the successful conduct of war or to safeguard life or property, which do not require higher precedence. (e.g., reports of priority land, sea, or air movement; administrative, intelligence, operational, or logistic activity calls requiring priority action; calls that would have a serious impact on military, administrative, intelligence, operational or logistic activities if handled as a ROUTINE call.) "Normally, PRIORITY will be the highest precedence which may be assigned to administrative matters for which speed of handling is of paramount importance."

Routine Precedence is reserved for all other official communications.

AUTOVON AND OVERSEAS DIALING INSTRUCTIONS

GENERAL INFORMATION

THESE INSTRUCTIONS ARE APPLICABLE TO THE AUTOVON AND NON-AUTOVON OUTGOING OVERSEAS CALLS MADE FROM VIETNAM THROUGH MILITARY FACILITIES.

DIALING INSTRUCTIONS

1. Class A-1 and Class A-2 subscribers in RVN can access the AUTOVON System or an overseas operator by dialing Nha Trang JOSS 8-960-1211 or Saigon JOSS 8-962-1101. In addition to these numbers, subscribers served by the Long Binh, Tan Son Nhut, Tiger, and MACV dial telephone exchanges can access AUTOVON or overseas operator by dialing 110.

The Class A-3 subscriber is limited to placing calls to Thailand and in Vietnam.

2. The following information is common to any outgoing overseas call regardless of number dialed for access.

a. Plan your call.

b. Obtain an overseas telephone control number from your unit's telephone control number releasing authority. A new control number must be obtained for each separate overseas call to be completed.

c. Dial one of the access numbers. If contact cannot be established, dial zero for operator assistance.

d. The following information is applicable to subscribers placing a ROUTINE precedence call thru the joint overseas switchboard:

- (1) Your overseas telephone control number.
- (2) Precedence level of call.
- (3) Number and location of party to be called.
- (4) Any other information required by the overseas operator.

e. The following information is applicable to subscribers placing a call of PRIORITY or higher precedence thru the joint overseas switchboard:

- (1) Your overseas telephone control number.
- (2) Precedence level of call.
- (3) Your telephone number including prefix.
- (4) Your name.
- (5) Your rank.
- (6) Your organization/section.
- (7) Your APO.
- (8) Your office routing symbol/designation.
- (9) Telephone number you are calling and location of the party to be called.

f. All calls placed through the overseas switchboards are subject to monitoring. All unauthorized personal calls intercepted by the operator will be disconnected. All violations will be reported to the proper authorities for necessary disciplinary action.

g. Subscribers receiving calls from other overseas areas are asked to give those subscribers your prefix and telephone number. The new AUTOVON in dial system permits these subscribers to dial directly to your extension. This practice will help to ease the operator traffic load at the joint overseas switchboards.

3. Vietnam subscribers have the capability of making OFFICIAL overseas calls to Australia, Hong Kong, Indonesia and Singapore. The overseas operator for these locations can be reached by dialing 8-962-1101. Subscribers served by the Long Binh, MACV, Tan Son Nhut and Tiger dial telephone exchange can also dial 110.

AUTOVON AND OVERSEAS DIALING

INSTRUCTIONS (CONT'D)

4. The following procedure is applicable to calls destined for Australia, Hong Kong, Indonesia, and Singapore.
 - a. Plan your call.
 - b. Have the correct telephone number of the party to be called.
 - c. Call an overseas operator and ask for the commercial telephone call releasing authority.
 - d. Give the releasing authority the following details:
 - (1) Precedence of call.
 - (2) Name, grade, and organization of party making call.
 - (3) Name, location, and telephone number of party being called.
 - (4) Any other information which may be requested.
 - e. The overseas operator will automatically intercept call after issuance of control number.
 - f. Give the overseas operator the control number you were assigned.

MINIMIZE

MINIMIZE is a procedure used during periods of crisis or other abnormal periods to reduce the volume of record and long distance telephone traffic ordinarily transmitted electrically.

MINIMIZE applies to ALL users of DOD communications systems, including originators of card and tape traffic.

PROCEDURES. When MINIMIZE is imposed, users of DOD electrical communications facilities must determine that:

1. The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.
2. Electrical transmission is the only way to get the information to the addressee in sufficient time to accomplish its purpose;

ALTERNATE MEANS OF COMMUNICATIONS. The US mail, the US Armed Forces Courier Service, or an individual as a courier or messenger should be used instead of using electrical means when MINIMIZE is imposed.

AUTHORITY TO IMPOSE AND CANCEL MINIMIZE. Commanders are authorized to impose MINIMIZE within their command or area of command responsibility unless specifically denied by appropriate higher authority. The Joint Chiefs of Staff impose it worldwide as well as in any specific area. The Joint Chiefs of Staff or the commander concerned, as appropriate, will cancel MINIMIZE when no longer required.

AUTHORITY: Allied Communications Publication (ACP)
121 US Supplement-1 (C)

DIALING INSTRUCTIONS

INTER-TANDEM DIRECT DIALING

1. Only Class "A" subscribers can dial from one Tandem area to another Tandem area.
 - a. Consult your directory for the correct listing of the subscriber you wish to call.
 - b. Dial the digit eight (8) and wait for the second dial tone. (Note: After dialing the digit 8, a two or more seconds delay will occur before the second dial tone will be heard, this is because the switching center equipment is searching for a tandem circuit that is not busy. If after dialing 8 and busy tone is heard, hang up your receiver and try again later as all the circuits are busy.)
 - c. After hearing the second dial tone, dial the seven digit number of the desired party. Area Code prefix (three digits) plus the extension number (four digits). (Note: After dialing is completed, a several seconds delay will occur before ringing is heard. If a busy tone is heard, hang up your receiver and try again as the number you dialed is busy.) Do not attempt to speed dial, allow the dial to return back to its proper place under its own momentum otherwise numbers will not register properly at the distant exchange.

FOR EXAMPLE: A subscriber in the Fleet Logistics Command at Da Nang wishes to call a subscriber in MACV HQ in the Saigon area. The Da Nang subscriber would dial 8-923-3292 and would be connected directly to the subscriber in the MACV HQ with the extension number 3292.

EXCEPTION: Due to a major change in the Southeast Asia Automatic Telephone System Pleiku Tandem Area is no longer in existence. The Pleiku Dial Exchange is now accessed thru the Tan Son Nhut, Nha Trang and Da Nang Tandem Areas, however, Tan Son Nhut Tandem Area is the primary entry for the Pleiku Dial Exchange. Class "A" subscribers in the following tandem areas may access Pleiku Dial Exchange by dialing:

Can Tho Tandem Area 8-941-XXXX
Tan Son Nhut Tandem Area 8-941-XXXX
Nha Trang Tandem Area 7-941-XXXX
Vung Chua Mtn Tandem Area 8-941-XXXX
Da Nang Tandem Area 7-941-XXXX

DIALING INSTRUCTIONS (CONT'D)

Pleiku Class "A" subscribers may access subscribers in dial exchanges of the following tandem areas by dialing:

Can Tho Tandem - 8 - Prefix - Extension
Tan Son Nhut Tandem- 8 - Prefix - Extension
Nha Trang Tandem - 7 - Prefix - Extension
Vung Chua Mtn Tandem - 7 Prefix - Extension
Da Nang Tandem - 7 - Prefix - Extension

In order for Binh Thuy and Soc Trang Class "A" subscribers to access other dial exchanges in the Southeast Asia Automatic Telephone System, they must dial 931-0121. Can Tho will extend the call. Class "A" subscribers from other areas will still access all exchanges in the Can Tho Tandem Area as before by dialing 8 - Prefix - Extension.

INTER-TANDEM DIRECT DIALING ASSISTANCE/ INFORMATION

2. Procedure to follow:

- a. Consult your directory for the correct operator assistance/information number.
- b. Dial the digit "8" and then the seven digit operator assist number of the dial exchange.
FOR EXAMPLE: A subscriber at Nha Trang wishes to get assistance at Long Binh. The Nha Trang subscriber would dial 8-926-0121 and Long Binh assistance/information operator would process the call.

CALLS TO A DIAL EXCHANGE WITHIN A TANDEM AREA

3. Procedure to follow:

- a. Consult your directory for the correct listing of the subscriber you wish to call.
- b. Consult the dialing instructions found in front of each Tandem Area.
- c. Class "C" subscribers are limited to direct dial capability. For best results consult the dialing instructions found in front of each Tandem Area. In blocks where "A"-C" is shown, the Class "C" subscriber can dial the seven digit dial exchange number directly. However, where only "A" is shown the Class "C" subscriber is unable to dial these exchanges.
FOR EXAMPLE: Class "C" subscriber at Bien Hoa wishes to call a subscriber in Long Binh. The Bien Hoa subscriber would dial 926-2804 and the Long Binh subscriber with extension 2804 would answer.
- d. The Class "A" subscriber can dial the same exchanges but also can dial other exchanges by dialing 8 - Area Code prefix - Extension number.

DIALING INSTRUCTIONS (CONT'D)

FOR EXAMPLE: A Plantation subscriber wishes to call a subscriber at Di An where direct dial circuits are not available. The Plantation subscriber must dial 8-928-2213 and the Di An subscriber with extension 2213 would answer.

LOCAL CALLS

4. Procedures for placing local call.
 - a. Consult your directory for correct listing.
 - b. Dial the last four digits of the listed number.

FOR EXAMPLE: A Long Binh subscriber wishes to call another Long Binh subscriber, dials the last four digits of the number listed.

INFORMATION/ ASSISTANCE

5. Procedures to follow:
 - a. For local information dial 113.
 - b. Class "A" subscribers can dial Information Assistance Operators in other Tandem Areas and can also dial Information/Assistance within their own Tandem Area. Procedures for obtaining this service is as follows:
 - (1) Dial the digit (8)
 - (2) Wait for the second dial tone, then dial the seven digit number of Information/Assistance Operator at the desired distant telephone Exchange.

FOR EXAMPLE: A Vung Tau subscriber wishes assistance at the Tiger Exchange. The Vung Tau subscriber would dial 8-922-0121 and the Tiger Operator would process the call.

CALLING A MANUAL EXCHANGE

6. Procedures for calling a subscriber serviced by a manual telephone exchange.
 - a. Consult Page XVIII for the operators assist number at the dial exchange which serves the distant manual telephone exchange.
 - b. Dial the digit (8), wait for the second dial tone then dial the seven digit number for operator assistance.
 - c. Give the operator the name of the manual telephone exchange and the number desired.
- FOR EXAMPLE: A Nha Trang subscriber wishes to call a subscriber located at Hue. The Nha Trang subscriber would dial 8-956-0121 to obtain the Phu Bai dial assist operator who would then process the call to the Hue switchboard and the desired party.

DIALING INSTRUCTIONS (CONT'D)

**CALLING FROM
A MANUAL
EXCHANGE
TELEPHONE**

7. Procedures for making a long distance call from a Manual Exchange Telephone.
 - a. If the call is going to a dial exchange, give your local operator the complete seven digit number of the desired party.
 - b. If the call is going to a manual exchange, give your local operator the name of the manual exchange and the desired extension number.

FOR EXAMPLE: A Hue subscriber wishes to call a subscriber at Phu Bai. When the Hue Operator answers, ask the operator for Phu Bai and the four digit number of the Phu Bai subscriber. When the Phu Bai Operator answers, he will extend the call to the Phu Bai subscriber.

DIRECT DIALING CODES

BELOW ARE THE DIAL TELEPHONE EXCHANGES AND MANUAL TELEPHONE EXCHANGES SERVED BY THE SOUTHEAST ASIA AUTOMATIC TELEPHONE SYSTEM. THIS LIST SHOWS THE EXCHANGE NAME, THE SEVEN DIGIT NUMBER TO DIAL TO OBTAIN INFORMATION OR OPERATOR ASSISTANCE, AND THE DIAL TELEPHONE EXCHANGE YOU SHOULD CALL FOR ASSISTANCE IN REACHING A MANUAL TELEPHONE EXCHANGE.

- WHEN YOU MAKE A
TELEPHONE CALL**
- ALWAYS REMEMBER TO**
1. PLAN AN EFFECTIVE CONVERSATION.
 2. PLACE THE CALL YOURSELF, EXCEPT IN SPECIAL CIRCUMSTANCES.
 3. HAVE THE CORRECT NUMBER (OR EXTENSION) IN MIND.
 4. LISTEN FOR DIAL TONE—DIAL CAREFULLY.
 5. IDENTIFY YOURSELF IMMEDIATELY TO THE FIRST PERSON ANSWERING THE CALLED TELEPHONE.
 6. IDENTIFY ALSO, WHEN HELPFUL, YOUR OFFICE AND PURPOSE IN CALLING.
 7. ASK WHETHER CALLED PERSON HAS "TIME TO TALK NOW" IF CALL IS LIKELY TO BE LENGTHY.
 8. TRY TO COMPLETE YOUR BUSINESS ON ONE CALL BY SECURING INFORMATION OR LEAVING A MESSAGE.
 9. VOLUNTEER YOUR EXTENSION AND THE BEST TIME TO REACH YOU IN CASE YOU REQUEST A "CALL-BACK".
 10. KEEP YOUR CONVERSATION BRIEF AND BUSINESSLIKE.
