VIC-EA  
SUBJECT: Monthly Civic Action Report

9. Significant problems encountered which hinder or render less effective the civic action programs conducted within the province, e.g., attitudes of local, district, and province officials and people; availability of commodities and equipment to accomplish projects:

There were no significant problems encountered.

10. Beneficial results of civic action, to include increased cooperation of people with GVN agencies, furnishing of intelligence information by the people and evidence of effective organization of the people in their own behalf in cooperation with GVN and US/FWMAF:

Information from ICAP led to ambush of VC squad resulting in 2 VC KIA, 1 VC POW (WIA). People helpful in pointing out numerous mines in area.

11. Description of specific civic action projects considered to be particularly effective and reasons for success to include methods employed:

Intensified ICAP program has resulted in better health, increased cooperation of population, and, coupled with preventive medicine instruction, improved sanitation condition. Our approach to this program was to divide the AO in Regions for CA work and using resources specifically tasked for this

12. Selected civic action projects having particular human interest appeal making them suitable for publication:

Same as item # 11.

→ program (Medics, military intelligence personnel, interpreters), commence work in the most needy areas. We requested and received assistance from RF/PF ~~units~~ and ARVN units in the AO. This assistance was in the form of security forces and medical personnel. An adjunct of the program was the on-the-job training of the RF/PF and ARVN medics. Success of the overall program has been very rewarding. Health has improved, timely intelligence gained, medics trained, and now we see RF/PF and ARVN units conducting their own programs (over)
