CG 1st Cav: Current intel indicates enemy
will increase his level of activity in the
near future. This increase will be towards attacks
by fire and sapper attacks on FSBs NDPs and
allied base camps because of current disposition
enemy will not attack local battalions or dense
populated areas, but will increase sabotage and
terrorist activities. It is essential that all
commanders assume a vigilancy under compound
security installation, power plants and communication.
Brigade and ARVN authorities should be informed
