Sherman Oaks, CA 91413

Dear John

I'd like to welcome you to the Air America Association and thank you for a good turn you did when you were in Udom. I was just beginning the first Yearbook for the Air America School and had no idea where or how to start. Your advice was "Decide on a theme and go from there." It worked out very well and the kids went on to produce many more after that.

Another reason for this letter concerns our soon to be expanded Web Site. Ed Adams, former pilot who spent some time with you, recalls that you photographed a lot of action scenes that did not make the finished product. Do you still have this film? Could it be made available for our Web Site?

I'm living in an RV on the beach in North Carolina this month and my phone number is 910 458-5244. After that, please use the Castroville address. Hope to hear from you soon and see you at the reunion at Lafayette, LA.

Sincerely,

Judy Porter
