To Whom It May Concern

In the matter of recognition of former Air America employees for veterans status, this office has been unable to find any documentation in our files to support a justification for a petition for veterans status. It must be stated that we hold hardly any documentation concerning the operations of Air America in Southeast Asia; a few pages at most. We also contacted the history offices at the Air Force Special Operations Command, the Defense Intelligence Agency, and the Air Intelligence Agency to see if those offices could provide documentation. These offices could not provide any documentation, either. We believe that the only agency that can provide supporting documents is the Central Intelligence Agency.

Sincerely
