# UNITED VETERANS OF AMERICA

**"Do you realize that VETERANS and their families AS A GROUP compile one of the largest interest groups in the United States? It's true.**

There are millions of us. And that by banding together we can exert a tremendous force for good at the voting polls!

As a voluntary Veteran's organization the U.V.O.A. was founded in 1984 for the purpose of uniting all veterans from every service and from every war or conflict.

UNITED VETERANS OF AMERICA demonstrate a united front to lobby for the good of us all. We need you and you need us.

By banding together we can elect the officials and enact the legislation that will provide all VETERANS with their long overdue proper honor and recognition.

As UNITED VETERANS OF AMERICA, our Creed is SERVICE: aiding and assisting VETERANS and their families by whatever means. This is accomplished on the national scene through influencing our lawmakers and casting our votes; and at the city and state levels through local chapters. . .

"As the Supreme National Commander of the UNITED VETERANS OF AMERICA it gives me great pleasure to welcome all honorably discharged veterans. Allied Forces and Veterans Family members are also welcome to join, male or female. Why not join our vast growing ranks in UNITED VETERANS OF AMERICA"

Dr. Barry Allen Krupkin, Supreme National Commander, UVOA  
(Note: Dr. Krupkin is a decorated Vietnam hero).

"There are Leadership Opportunities for everyone from organizing administrating and starting local chapters. Information and detail is included with your membership.

Each new member receives a most beautiful multicolored CERTIFICATE, made out in your name, you will be proud to display, an official I.D. card is issued plus 70 MONEY MAKING PROGRAMS and special U.V.O.A. discount cards. All is included with your membership packet. Dr. BOB L. OWEN, Ph.D., National Membership Chairman United Veterans of America.

**IN VIETNAM...**

"Roger Cochran was exposed to the same hellish jungle warfare as millions of other women and men. Not physically wounded, he was still a casualty. Unable to adjust to private, professional life in and out of VA hospitals for years, Roger's condition was never officially diagnosed until he was told he had AIDS. . ."

**WITH MEMBERS WORLDWIDE  
JOIN U.V.O.A. TODAY.**

As most veterans know, doctors in VA hospitals don't talk about things such as AGENT ORANGE, or Post Traumatic Stress Disorder. But the patients

talked about them. They recognized the symptoms:  
blinding headaches. . . skin rashes that refuse to heal.  
. . . depression. . . feelings of isolation and alienation.  
. . . sudden, violent rage they could not control. . .

Even treated with drugs, these symptoms often escalated to alcohol and substance abuse. Along with nightmares and night sweats. Uncontrolled diarrhea, weight loss, Dementia, and in Roger Cochran's case. . . AIDS.

But Roger did not die. He licked AIDS, which the media and many doctors say is incurable. In the process he learned things about his body that no doctor, no hospital ever told him; information that can help every one of us. Perhaps even save your life!

Actual Size of your membership certificate will be 8½ x 11½
