Dear Jim,

I enclose the list of AAM employees who were killed in SEA, 1960-1975. I believe that the list is fairly complete, although it does not include non-US citizens. I started out with a list of names and dates, and I have been trying to fill in the details (aircraft type, location, circumstances). I would appreciate any additional information.

I also am enclosing a quote from the recent USAF Official History of tactical airlift during the Vietnam War. Let me know if I can do anything else to help.

Any information, documentation, personal recollections, or contacts that you might be able to provide on AAM or Continental would be welcome. I suspect that I will be collecting data for the next five years or so for my sequel to PERILOUS MISSIONS: CIVIL AIR TRANSPORT AND CIA COVERT OPERATIONS IN ASIA.

Good luck with the court case.

All best wishes,

William M. Leary
Associate Professor
