

6th April 95
— " —

Dear J.C.

Thank you ever so
much for the information on
the 4th Reunion.

Barbie & I have already
made tentative arrangements
to attend & I have just written
to Ken Adams to let him know
also.

The plague I promised
has made it to the U.S. &
I would appreciate it
if I may present ^{it} to
your Association,
whenever you
feel it appropriate.

I know all of you are busy
so I'll see you there and look
forward to buying you an ale.

Barbie & Liam are both
very excited & nervous, but
I reassured her that U.S.
sailors behave just like me,
which had her reaching for
the Valium.

By the way my looks have
improved since the grey hairs
have been removed.

My kindest regards
to Sylvia

Take Care

Erker.
