

**August 1, 1994**

**Dear Bill,**

**Good to hear from you and thanks for the dues. They do help with the mailing and other costs. The list that is enclosed does not have the dates each sailor served aboard the Evans. However that is a good idea to incorporate into the system. It is our goal to get as much information as possible about each and every one we can visit with.**

**Do you have any plans to attend the Reunion in Las Vegas in October? We have had a great time at the first two meetings. You can meet some of the nicest sailors and their wives. It is a must! This is the place to start getting information as to who, what, where and when each sailor served. Also, there is a professor at the University of North Texas in Denton Texas that is doing that very thing. He is collecting information on all T In Can sailors, but he is starting with those who served during the Second World War. I have wrote to him and expect to hear soon. If anything comes from it I will let everyone know.**

**I am thinking about getting patches made for the reunion. They will be of the art work at the top of this letterhead. If you would be interested, please let me know. I had t-shirts and sweat shirts made the last two reunions, and am thinking of offering that again, but may take orders at the reunion in Vegas. Caps can be ordered from an individual that H. G. Nichols knows. His phone number is  
Give him a call!**

**Again, it's good to hear from an Evans sailor. By the way, I served aboard the Evans during Korea in 1952 and 53. I was a fireman in the aft fire room.**

**Sincerely,**

**J. C. Campbell**
