## **Lest We Forget Them!**

**One of the primary goals of the organization is to honor the memory of our shipmates who served aboard the U.S.S. Frank E. Evans whether in peace or war. We must be ever mindful of those 74 heroes who made the ultimate sacrifice on the 3rd of June, 1969. Each year during our reunion we do our best to recognize the passing of any shipmate we are made aware of. We are especially grateful to the families who have made us aware of a shipmates passing and ask that members notify us should they become aware of the loss of a shipmate.**

**Since September 1, 1997, family members and shipmates have notified the association of the passing of the following shipmates. We honor and recognize the service of these shipmates and extend our condolences to the immediate family as well as the crew family.**
