10 June

Hi Harry:

I guess the Sgt beside me the write this letter because I cant hold a pen. and I know you are anxious to know about my progress in the Hospital.

So far all my burns are doing real well. My new skin are still ~~so~~ tender to touch. I get 11 shots a day so you can tell how sore my butt & legs are.

A Captin and a admiral Come in today just to see how I am doing. He ^{said} ~~said~~ all The Evans Crew up the Long Beach. I sure miss it and I

would like to be in it.
But well I will have
my own time after the
return trip to Serbia.
To complete the invasion
procedures.

By next week I should
be able to write my
own letters. Meanwhile
if you do write used the
address at the end of the
letter.

Take care of your self
and the kids dont worry
about me because I am
getting good care and going
to be alright.

Love you all

Mike
