April 26 1991

E. R. Zumwalt, Jr.
Admiral, U.S. Navy (Ret.)

Dear Admiral:

Thank you for your letter advising me of the establishment of an Agent Orange Coordinating Council. I fully agree with your view that veterans and their families are continuing to suffer and die of exotic cancers and other strange diseases as a result of exposure to Agent Orange.

I would be honored to serve in any way you see fit on an Agent Orange Coordinating Council. I would also like to recommend Frank McCarthy, President, Vietnam Veterans Agent Orange Victims, Inc., 5949 East Colonial Drive, Orlando, Florida 32807. Frank has been working in affiliation with the Veterans of the Vietnam War, Inc. for many years and would certainly do whatever it takes to get the services and considerations needed for Vietnam and its veterans.

We certainly have a very capable leader with you at the helm and appreciate all that have done and will do for the benefit of those who served their country so willingly. We cannot abandon them.

Hoping to hear from you in the near future with more details on the Council.

Thank you for considering the Veterans of the Vietnam War, Inc. and me personally.

Sincerely,

Michael Milne
