RE: A-1773.

Dear Assemblyman Frelinghuysen:

It has been brought to my attention that you have taken a position on Assembly Bill #A-1773, without hearing or knowing all of the facts, concerning the problem that the New Jersey Agent Orange Commission, has been up against, since the Governor appointed a new Commission in July, 1991, with regards to the recent audit that was done on the New Jersey Agent Orange Commission, and their "Pointman Project".

I will agree that the "Audit In Question", does look bad, but ever since the new Commission was appointed in July, 1991, the new Commission has been trying, without success, to get the reports due to the Commission, along with all of the property that belongs to the Commission, also without any success.

The new Commission has used every avenue of approach to obtain their reports, and property from Rutgers, and Dr. Peter Kahn. They have even been thinking about filing suit against Rutgers, to obtain what belongs to the Commission, and to try to recoup all of the cost overruns, from the Pointman Project at Rutgers, and in turn, it would be turned over to the general treasury.

I do not see why the New Jersey Assembly Appropriations Committee, and you as Chairman, do not try to work with the New Jersey Agent Orange Commission, in their time of need, instead you have decided to be the reason why the Commission will go out of business.

RE: A-1773.

I trust that I will be hearing from you, personally, to discuss what can be done to help the New Jersey Agent Orange Commission, the Pointman Project, and Vietnam Veterans' and their families.

Keep in mind, Vietnam Veterans' and their families, throughout this country, will be watching the Assembly Appropriations Committee, and you as the Chairman, to see what comes of all of this.

With the best interest of the Vietnam Veteran, their families, and those who STILL feel the effects of exposure to herbicides in mind,

I remain;
