Assistant Archivist,  
National Archives And Records Administration  
Washington, D.C., 20408

Re: Agent Orange Files - Your Letter Dated 21st February, 1992.

Dear Mr. Moore;

My letter today, is in response to the letter that I had received from you dated 21st February, 1992, and received on 24th February, 1992, regarding the Agent Orange Project Files, and all records concerning the Agent Orange issue.

Your letter of 21st February, 1992, is a response to my letter to Mr. Donald Wilson; Archivist, dated 8th February, 1992, concerning pending records schedule #N1-442-90-5.

In your letter of 21st February, 1992, you stated "Please Be Assured That We Will Carefully Consider Your Concerns And Respond More Fully To The Issues You Have Raised Before The Archivist Takes Formal Action On The Schedule".

My question to you today, Sir, is, "Has any formal action been taken on pending records schedule #N1-442-90-5, and if so, what was that action" ????

I trust that you will respond more fully, that you did in your 21st February, 1992 letter to my office. I have been waiting to hear from your office since the February letter, and I am quite sure, that your agency has made some kind of a decision on this matter of the Agent Orange files!!

I can not make it any clearer than this, "That Any Records, Documents, Notes, Or Files, That Have ANYthing To Do With The Agent Orange Issue, Should Never Be Destroyed" !!!!

RE: AGENT ORANGE FILES.

I trust that I will be hearing from your office, in the near future, with a more positive response, that will be of benefit to the Vietnam Veteran Community.

If you would like to discuss this issue with me, I can be reached at the address, and/or telephone number at the top of page one of this letter, as I am very concerned, and so are those who are taking part in my Health Study, that any proof that would be of benefit to them, would be destroyed, and lost forever, when the TRUTH is starting to come out, of what Agent Orange, and the highly toxic DIOXIN, has done to the Veterans lives, and the lives of their family.

With the best interest of the Vietnam Veteran, their families, and those who STILL feel the effects of exposure to herbicides in mind,

I remain;

James H. Burdge, Sr.  
National Coordinator & Founder;  
VIETNAM VETERAN/AGENT ORANGE HEALTH STUDY
