

JUN 01 1983

GARY C. WALL,
President
New Jersey State Council
Vietnam Veterans of America, Inc.

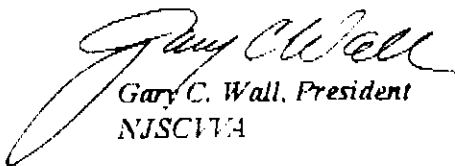

Dear Brothers,

I am sorry that this poster has taken so long to complete. Between being laid off from a job I have held for 16 year, personal problems to complex to describe and recent events within the New Jersey State Council, I have been hard pressed. Additionally, since most of the work was either partially or fully donated services, it took longer than anticipated. Again, I apologize for the delay and accept full responsibility.

The posters, I believe, are worth the wait. Please be reminded that the agreement was that these posters would not be used for fund raising efforts by either VVA or any group or individuals wishing to purchase the posters. For VVA Chapters and State Councils, they are available for the cost of reproduction and shipping. For any other group or organization, we will assess a small fee to cover the cost of investment by the State Councils of New Jersey (\$1000.00), New York (\$500.00), Pennsylvania (\$500.00) and Michigan (\$500.00). We will keep books on the project and return any moneys unused or secured through outside organization orders in a proportionate share to the aforementioned State Councils. Please be advised that any organization wishing to purchase these posters will be required to submit a notarized statement as to their intended use.

I wish to thank each of you for your support and (sometimes strained) understanding of the delays that have been encountered. If each of the contributing State Councils will provide me the address that the posters should be sent to, I will get them out immediately. It is our intent to divide the first run (because that is all we could afford) between the contributing States.

In Brotherhood,

Gary C. Wall, President
NJSCVVA
