Hon. Vice-President Al Gore
The White House

Dear Vice-President Gore,

The dumping of Dioxin tainted sludge from Port Elizabeth, New Jersey to a point six miles off-shore into the ocean should not be allowed to happen. Should this first dumping occur it will open the flood gates to further ocean dumping of toxic sludge. There are currently at least two additional dumping permits awaiting approval.

I've attached two editorials, one each from the Star-Ledger of New Jersey and the New York Post, and my replies to those editorials and other related articles.

Your support against this dumping would be appreciated.

Sincerely,

Michael Eckstein
Co-Chairman, Agent Orange Committee
