E.R. Zumwalt, Jr.
Admiral U.S. Navy, Retired

Arlington, VA

Dear Admiral Zumwalt:

We recently obtained a grant through the Agent Orange Class Assistance Program to work with children and families of Vietnam Veterans in three rural Washington state counties. We are eager to serve these families and want to access available resources.

Please send me a copy of your study so I can better understand what we are looking for. I have read information on you and your family, including your son's book. I admire your efforts and courage in this process, which is a painful one for us all.
