Dr. Jon Stellman is 98% done
with a study which compares
his trap positions, plotted from
tapes, with the direct level
readings in CDC's Validation
study. He is trying to get a
peer review lined up & then
a report to OSHA. He believes
it will totally destroy CDC's
previous positions.

He has additional info
to establish that CDC's result in
validation study was pre-determined
by Hawk/Mason.
