Deputy Editor
RUTH LILIS, MD

Mr. Richard Christian

Alexandria, VA

Dear Mr. Christian,

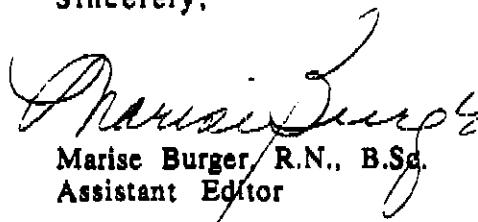

At Dr. Landrigan's request, I am enclosing some articles on issues and perspectives regarding prostate cancer. As noted in the Introduction, a special meeting was called in December 1993 to clarify the topic for both the medical and lay audiences.

I have selected some of the more general pieces that I hope may prove informative, providing some idea of current protocols and attitudes. From what Dr. Landrigan has said, you operate on information, not hearsay.

He sends his best regards. Please feel free to be in touch again. I would like to think the presence of our very own William J. Nicholson, PhD on the most current Institute of Medicine Vietnam Veterans study would be a reassurance. All best wishes.

again

Sincerely,

Marise Burger, R.N., B.Sc.
