THE SURGEON GENERAL OF THE NAVY

3 October 1996

Z

Dear Admiral Zumwalt,

Thank you for your call Wednesday morning regarding your impressions and feedback you have received from friends and colleagues about National Naval Medical Center, Bethesda.

After meeting with the Youngs last Thursday, I put in place an action plan to fix the underlying causes of the problems they experienced. Also, I will aggressively, albeit discreetly, pursue resolution of the other issues you raised with CDR Maloney.

In closing, I value your continued interest and support of Navy Medicine, and fully appreciate the confidence you have placed in me in resolving these very sensitive issues.

Very respectfully,

A handwritten signature in cursive script that reads "Harold M. Koenig".
