

THE SURGEON GENERAL OF THE NAVY

4 February 1997

FU

Dear Admiral Zumwalt,

As part of our process improvement initiatives in Navy Medicine, we recently established an Enrichment Program for senior leadership of the Navy and Marine Corps. Since you are a contributing architect of today's Navy, and continue to provide a leadership role in the Navy Community, I want to include you in this program. Therefore, I cordially invite you to join me and my staff at the Bureau of Medicine and Surgery for a presentation on Navy Medicine today.

Your visit will include a meeting with me, and briefings on readiness, training issues, managed care initiatives, resource management, performance indicators and the evolving vision of our strategic plan. I think you will find we are doing very dynamic things with technology and strategic planning to meet the challenges of the twenty-first century.

I look forward to the opportunity to meet with you. The goal of our Enrichment Program is to involve you and other key stakeholders in Navy Medicine's regional and programmatic issues by improving teamwork and communication. In addition, I want to provide you with information you may personally find useful and information you can use to help us market Navy Medicine. I invite discussion on any healthcare concerns you have, as well.

Please contact Ms. Linda McFadden at _____, if you would like to participate in this program. She will schedule your visit and provide you with additional information as required.

Very respectfully,

HAROLD M. KOENIG
Vice Admiral, Medical Corps
United States Navy

Admiral Elmo R. Zumwalt, Jr., USN (RET)
